Facility AUDIT FINDINGS

Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

6

- 115.11 - Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
- 115.13 - Supervision and monitoring
- 115.16 - Inmates with disabilities and inmates who are limited English proficient
- 115.17 - Hiring and promotion decisions
- 115.31 - Employee training
- 115.88 - Data review for corrective action

Number of standards met:

39

Number of standards not met:

0

POST-AUDIT REPORTING INFORMATION

Please note: Question numbers may not appear sequentially as some questions are omitted from the report and used solely for internal reporting purposes.

GENERAL AUDIT INFORMATION

On-site Audit Dates

1. Start date of the onsite portion of the audit:	2026-06-16
2. End date of the onsite portion of the audit:	2026-06-18

Outreach

10. Did you attempt to communicate with community-based organization(s) or victim advocates who provide services to this facility and/or who may have insight into relevant conditions in the facility?	☒ Yes ☐ No
a. Identify the community-based organization(s) or victim advocates with whom you communicated:	Action Alliance

AUDITED FACILITY INFORMATION

14. Designated facility capacity:	371
15. Average daily population for the past 12 months:	191
16. Number of inmate/resident/detainee housing units:	10
17. Does the facility ever hold youthful inmates or youthful/juvenile detainees?	☐ Yes ☒ No ☐ Not Applicable for the facility type audited (i.e., Community Confinement Facility or Juvenile Facility)

Audited Facility Population Characteristics on Day One of the Onsite Portion of the Audit

Inmates/Residents/Detainees Population Characteristics on Day One of the Onsite Portion of the Audit

23. Enter the total number of inmates/residents/detainees in the facility as of the first day of onsite portion of the audit:	185
25. Enter the total number of inmates/residents/detainees with a physical disability in the facility as of the first day of the onsite portion of the audit:	8
26. Enter the total number of inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) in the facility as of the first day of the onsite portion of the audit:	89
27. Enter the total number of inmates/residents/detainees who are Blind or have low vision (visually impaired) in the facility as of the first day of the onsite portion of the audit:	1
28. Enter the total number of inmates/residents/detainees who are Deaf or hard-of-hearing in the facility as of the first day of the onsite portion of the audit:	2
29. Enter the total number of inmates/residents/detainees who are Limited English Proficient (LEP) in the facility as of the first day of the onsite portion of the audit:	0
30. Enter the total number of inmates/residents/detainees who identify as lesbian, gay, or bisexual in the facility as of the first day of the onsite portion of the audit:	0

31. Enter the total number of inmates/residents/detainees who identify as transgender or intersex in the facility as of the first day of the onsite portion of the audit:	0
32. Enter the total number of inmates/residents/detainees who reported sexual abuse in the facility as of the first day of the onsite portion of the audit:	2
33. Enter the total number of inmates/residents/detainees who disclosed prior sexual victimization during risk screening in the facility as of the first day of the onsite portion of the audit:	10
34. Enter the total number of inmates/residents/detainees who were ever placed in segregated housing/isolation for risk of sexual victimization in the facility as of the first day of the onsite portion of the audit:	0
35. Provide any additional comments regarding the population characteristics of inmates/residents/detainees in the facility as of the first day of the onsite portion of the audit (e.g., groups not tracked, issues with identifying certain populations):	Due to the specialized mental health mission of the facility, a large portion of the population are identified as having a cognitive or functional disability. There were no barriers to completing the inmate interviews.
Staff, Volunteers, and Contractors Population Characteristics on Day One of the Onsite Portion of the Audit	
36. Enter the total number of STAFF, including both full- and part-time staff, employed by the facility as of the first day of the onsite portion of the audit:	246
37. Enter the total number of VOLUNTEERS assigned to the facility as of the first day of the onsite portion of the audit who have contact with inmates/residents/detainees:	35

38. Enter the total number of CONTRACTORS assigned to the facility as of the first day of the onsite portion of the audit who have contact with inmates/residents/detainees:	3
39. Provide any additional comments regarding the population characteristics of staff, volunteers, and contractors who were in the facility as of the first day of the onsite portion of the audit:	None
INTERVIEWS	
Inmate/Resident/Detainee Interviews	
Random Inmate/Resident/Detainee Interviews	
40. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	10
41. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	☐ Age ☐ Race ☐ Ethnicity (e.g., Hispanic, Non-Hispanic) ☒ Length of time in the facility ☒ Housing assignment ☐ Gender ☐ Other ☐ None
42. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	Random inmates were chosen from each housing unit in the facility by bed number
43. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	☒ Yes ☐ No

44. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	Most of the random inmates selected also fell into at least one specialized category and therefore were also asked those interview questions.
Targeted Inmate/Resident/Detainee Interviews	
45. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	10
As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".	
47. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	2
48. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:	17
49. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:	1

50. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:	1
51. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:	0
a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:	☒ Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees. ☐ The inmates/residents/detainees in this targeted category declined to be interviewed.
b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	Based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates.
52. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:	0

Based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates.
57. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):	The Auditor began conducting targeted inmate interviews on day two of the on-site portion of the audit. Based upon the inmate population on day one of the audit (185), the PREA Auditor Handbook required that the auditor interview a minimum 20 total inmates. All interviews with inmates occurred in a secure area to ensure privacy. Offender interviews were conducted using the established DOJ interview protocols. If an inmate had refused to be interviewed, an additional inmate from the same targeted group would be selected. There were no selected inmates that refused.
Staff, Volunteer, and Contractor Interviews	
Random Staff Interviews	
58. Enter the total number of RANDOM STAFF who were interviewed:	12

59. Select which characteristics you considered when you selected RANDOM STAFF interviewees: (select all that apply)	☒ Length of tenure in the facility ☒ Shift assignment ☒ Work assignment ☒ Rank (or equivalent) ☐ Other (e.g., gender, race, ethnicity, languages spoken) ☐ None
60. Were you able to conduct the minimum number of RANDOM STAFF interviews?	☒ Yes ☐ No
61. Provide any additional comments regarding selecting or interviewing random staff (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	Random staff were selected from all shift assignments. There were no barriers to completing the random interviews.
Specialized Staff, Volunteers, and Contractor Interviews	
Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.	
62. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):	22
63. Were you able to interview the Agency Head?	☒ Yes ☐ No
64. Were you able to interview the Warden/Facility Director/Superintendent or their designee?	☒ Yes ☐ No

65. Were you able to interview the PREA Coordinator?	☒ Yes ☐ No
66. Were you able to interview the PREA Compliance Manager?	☒ Yes ☐ No ☐ NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)

67. Select which SPECIALIZED STAFF roles were interviewed as part of this audit from the list below: (select all that apply)

- ☐ Agency contract administrator
- ☒ Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment
- ☐ Line staff who supervise youthful inmates (if applicable)
- ☐ Education and program staff who work with youthful inmates (if applicable)
- ☒ Medical staff
- ☒ Mental health staff
- ☐ Non-medical staff involved in cross-gender strip or visual searches
- ☒ Administrative (human resources) staff
- ☒ Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) staff
- ☒ Investigative staff responsible for conducting administrative investigations
- ☒ Investigative staff responsible for conducting criminal investigations
- ☒ Staff who perform screening for risk of victimization and abusiveness
- ☒ Staff who supervise inmates in segregated housing/residents in isolation
- ☒ Staff on the sexual abuse incident review team
- ☒ Designated staff member charged with monitoring retaliation
- ☒ First responders, both security and non-security staff
- ☒ Intake staff

	☒ Other
If "Other," provide additional specialized staff roles interviewed:	Training, Mailroom, Disciplinary
68. Did you interview VOLUNTEERS who may have contact with inmates/residents/detainees in this facility?	☐ Yes ☒ No
69. Did you interview CONTRACTORS who may have contact with inmates/residents/detainees in this facility?	☒ Yes ☐ No
a. Enter the total number of CONTRACTORS who were interviewed:	2
b. Select which specialized CONTRACTOR role(s) were interviewed as part of this audit from the list below: (select all that apply)	☐ Security/detention ☐ Education/programming ☒ Medical/dental ☐ Food service ☐ Maintenance/construction ☐ Other
70. Provide any additional comments regarding selecting or interviewing specialized staff.	There were no volunteers available during the onsite review.

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

71. Did you have access to all areas of the facility?

☒ Yes

☐ No

Was the site review an active, inquiring process that included the following:

72. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

☒ Yes

☐ No

73. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

☒ Yes

☐ No

74. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

☒ Yes

☐ No

75. Informal conversations with staff during the site review (encouraged, not required)?

☒ Yes

☐ No

76. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	The Auditor had full, unimpeded access to all areas of the facility. During the review of the physical plant, the Auditor observed the facility layout, staff supervision of offenders, security rounds, interaction between staff and offenders, shower and toilet areas, placement of PREA posters, observation of availability of PREA information located adjacent to and in the inmate housing areas, observation of communication in general population housing areas, as well as restrictive housing cells, search procedures, and availability and access of medical and mental health services. The Auditor observed and made note of the video monitoring system and camera placement throughout the facility, in individual protective cells, and including reviewing the monitors in the control room.
Documentation Sampling	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
77. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	☒ Yes ☐ No

78. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

The Auditor conducted a document review of employee and inmate files, and a spot check of documents that were previously provided to the auditor along with the PAQ, including log books and other institutional forms. The Auditor reviewed a random sampling of personnel files to determine compliance related to standards on hiring and promotion and background check procedures for officers and contract staff. The auditor reviewed the annual PREA training rosters maintained by the training staff and cross referenced the staff files with the training rosters to ensure training was verified. The training coordinator explained the process for relaying the mandated PREA information to new hires, as well as the procedure for annual refresher training. Offender case files for inmates that were interviewed were reviewed to evaluate intake procedures, including screening and subsequent housing decisions, and verify offender PREA education. In addition, the intake and receiving procedures were observed and intake screenings are conducted in private. The Auditor requested additional supporting documentation to include: training records, randomly chosen inmate medical records, randomly chosen inmate classification records, volunteer records, contractor records, and staff personnel files including PREA disclosure forms for hiring and promotions. Investigative files for the previous 12 months were reviewed for compliance to applicable standards.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

79. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	2	0	2	0
Total	2	0	2	0

80. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	1	0	1	0
Total	1	0	1	0

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for “convicted.”) Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

81. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0	0
Total	0	0	0	0	0

82. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	2	0	0
Total	0	2	0	0

Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term “inmate” in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

83. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/ Court Case Filed	Convicted/ Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
Total	0	0	0	0	0

84. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

Findings:

The Auditor reviewed the VADOC Policies. The Department has a comprehensive PREA policy, which clearly mandates a zero-tolerance policy on all forms of sexual abuse and harassment. The language in the policy provides definitions of prohibited behaviors in accordance with the standard and includes notice of sanctions for those who have been found to have participated in prohibited behaviors. The definitions contained in the policy are consistent and in compliance with PREA definitions. The policy details the agency's overall approach to preventing, detecting, and responding to sexual abuse and harassment. There are informational posters prominent in all areas of the facility. Interactions and interviews with both offenders and staff also reflect that staff at all levels and inmates are aware of the zero-tolerance mandate.

The agency's policy stipulates the Director has designated a PREA/ADA Supervisor as the statewide PREA Coordinator to work in the office of the Chief of Corrections Operations with sufficient time and authority to develop, implement, and oversee DOC efforts to comply with the Prison Rape Elimination Act standards in all DOC facilities. The VADOC has designated an upper-level staff as the agency-wide PREA Coordinator for the department. By virtue of her position, she has the authority to develop, implement and oversee the Department's efforts to comply with PREA standards. The PREA Coordinator communicates regularly with the PREA/ADA Analysts and manages all facets of PREA Compliance for the Agency.

Per a memo from the VADOC Director dated 3-16-2026, organizational re-alignments were implemented across the Department to strengthen operational effectiveness, accountability, and coordination across key functions. As of March 25, 2026, to strengthen oversight of regulatory and compliance programs, all PREA functions report to the Chief of Administrative Compliance. The auditor was provided and reviewed the updated agency organizational chart, which confirms that the PREA Coordinator reports to the Chief of Administrative Compliance, who, in turn reports to the Deputy Director of Administration.

There are three Regional PREA Analysts that report directly to the PREA Coordinator. MCTC is in the Western Region of the state. The PREA/ADA Analyst is very knowledgeable about the facility, and the requirements of the Prison Rape Elimination Act. She works closely with facility staff and acts as a liaison on PREA related matters.

There is a PREA Compliance Manager for each facility that reports to the PREA Analyst for their respective region. The auditor reviewed the list of PREA Compliance Managers provided. There is a total of forty PREA Compliance Managers that report to the Regional Analysts. There appears to be an open line of communication between all levels of staff at the Department and facility levels. The PREA Coordinator and PREA Analysts are directly involved in the implementation efforts, as well as handling and reviewing individual offender issues for the agency.

The MCTC has designated an upper-level staff member as the PREA Compliance Manager. Her position is Operations Manager and reports to the Warden and Regional PREA Analyst on PREA related matters. A review of the organizational chart reflects

	this position in organizational structure. The PCM reports that she has sufficient time and by virtue of her position, the authority to develop, implement and oversee the facility's efforts to comply with PREA standards. The PCM is involved in the implementation efforts, as well as handling and reviewing individual offender issues at the facility level. The PREA Compliance Manager appears to understand the role and importance of the position and ensures that all facets of the MCTC PREA program are completed per policy and the PREA standards. Work Description and Performance Plans reveal the agency has outlined PREA compliance related duties and responsibilities for the PREA Coordinator, Regional PREA/ADA Analysts, and PREA Compliance Managers. The plans specify the duties at each specific level and include the employee's immediate supervisor. The established chain of command allows each staff member in a PREA related role to take steps to improve and/or address PREA related compliance efforts and/or responses. Interviews with facility staff indicated that they were trained in and understood the zero-tolerance policy established by the MCTC and VADOC. The random staff interviewed were able to articulate their role regarding prevention, detection and response procedures for PREA allegations. The agency trains all staff on an annual basis. In a targeted interview with the Warden, he stated that a focus on PREA is an active, ongoing consideration. He feels that the staff do an excellent job of dealing with the specialized population that they serve and are very good at picking up issues with the inmate population. He stated this makes them naturally proactive are able to many times handle issues before they become a problem. After a review, the Auditor determined the facility exceeds the requirements of the standard. Corrective Action: None

The VADOC policy requires contracts include a provision for contract monitoring to ensure the contract facility is complying with the PREA standards. Policy does not allow the DOC to enter a contract with an entity that fails to comply with PREA standards except in emergency situations. Per the PAQ, the number of contracts for the confinement of inmates that the agency entered into or renewed with private entities or other government agencies on or after August 20, 2012, or since the last PREA audit, whichever is later: 0 The Virginia Department of Corrections previously contracted for confinement of its offenders with GEO Corrections & Detention, LLC. The GEO Group operated a private prison in Lawrenceville, Virginia. As of August 1, 2024, the Virginia Department of Corrections assumed control of Lawrenceville at the end of the contract term. Lawrenceville CC is no longer operated as a contract facility. The Virginia Department of Corrections houses inmates in local and regional jails across the state. The Code of Virginia allows for the confinement of VADOC inmates in those facilities. There is no contract or written agreement, however each facility housing VADOC inmates is required to comply with the PREA standards. MCTC does not house inmates contracted by other entities or contract with other entities to house MCTC inmates. Any contracts for confinement of DOC inmates are done at the agency level. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.13	Supervision and monitoring
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination:

1. VADOC OP 401.2 Security Staffing Assignments
2. VADOC OP 401.3 Administrative Duty Coverage
3. VADOC OP 401.1 Development and Maintenance of Post Orders
4. Post Audit
5. Annual Staffing Review 2026
6. Camera List
7. Post Assignment Rosters
8. Post Logbooks
9. Documentation of unannounced rounds
10. MCTC Completed PAQ

Interviews with the following:

- PCM
- Warden
- Random Staff
- Supervisors Responsible for Conducting Unannounced Rounds

Observation of the following:

- Observation of unannounced rounds by supervisors as well as auditors during the site review
- Observation of supervisors documenting rounds in the daily logbooks on the duty post during the site review

Findings:

VADOC policy 401.2 states that:

A. The staffing plan for each facility is a combination of the facility's current Post Audit, approved Shift Design, and proper roster management using the annual Master Roster and Daily Duty Rosters. (§115.13[a]; §115.213[a])

1. The Facility Unit Head or designee must consider posts that required specialized training or certification and Corrections Officer supervision of the opposite gender when developing the facility's staffing plan.
2. The facility staffing plan provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates and CCAP probationers/parolees from sexual abuse.
3. In calculating adequate staffing levels and determining the need for video monitoring, the Facility Unit Head will take into consideration: (§115.13[a]; §115.213[a])
 - a. Generally accepted detention and correctional practices
 - b. Any judicial findings of inadequacy
 - c. Any findings of inadequacy from Federal investigative agencies
 - d. Any findings of inadequacy from internal or external oversight bodies
 - e. All components of the facility's physical plant, including "blind spots" or areas where staff, inmates, or CCAP probationers/parolees may be isolated (§115.213[a])
 - f. The composition of the inmate or CCAP probationer/parolee population (§115.213[a])
 - g. The number and placement of supervisory staff
 - h. Facility programs occurring on a particular shift.

- i. Any applicable State or local laws, regulations, or standards
- j. The prevalence of substantiated and unsubstantiated incidents of sexual abuse (§115.213[a])
- k. Any other relevant factors (§115.213[a])

The policy also states that by January 31st of each calendar year, each facility shall assess, determine, and document whether adjustments are needed to the facility staffing plan. The policy states the Warden shall identify on each post assignment schedule all critical posts that must be filled on each shift. The MCTC staffing plan addresses all required elements of the standard. The staffing plan addresses staffing in each area, staffing ratios, programming, facility layout, composition of the inmate population, video monitoring and other relevant factors.

The most recent review of the staffing analysis for MCTC was completed on January 30, 2026. The facility staffing is based upon a multi-faceted formula to determine the number of staff needed for essential positions. The Auditor reviewed MCTC's post audit completed on August 9, 2023, which indicates there are 170 authorized FTE positions for security. The staffing plan review indicated that: "The staffing plan was found to appropriately address staffing patterns and shifts to provide maximum coverage of inmate supervision while in the housing units and during all activities. Daily Duty Roster staffing decisions are made to ensure that all posts impacting inmate supervision are manned in accordance with the approved Post Audit. The Watch Commander has the authority to draft Security Staff for appropriate coverage and/or modify operations as necessary to provide adequate supervision in cases where approved posts would not be manned and deviations from the Post Audit may occur."

Daily Duty Roster staffing decisions are made to ensure that all posts impacting inmate supervision are manned in accordance with the approved Post Audit. As of January 30, 2026, the MCTC vacancy rate is 2.9% with 5 security position vacancies. The Post Audit review was designed on a predicted total inmate population count of 371. The current inmate population count for MCTC is 196. MCTC has two Unit Managers (one for the Main building and one for the Cadre Building), one Institutional Investigator, and two Intelligence Officers.

The following reasons have been identified as the five most common reasons for deviations from the Staffing Plan:

- Call-ins
- Additional mandated training
- Security staff vacancies
- Short-term Disability/Sick leave absences
- Staff vacations
- Staffing demands for a large amount of medical transportation

Marion Correctional Treatment Center's current Post Audit has a required FTE of 170.30, with an authorized FTE of 170. Marion Correctional Treatment Center has a minimum staff requirement before acquiring additional staff through the draft procedure. Per the staffing plan review, "adequate staffing was considered to ensure

safety for the facility's current and potential population of specialized inmates that require more intensive or specialized staffing, including female inmates, LGBTI inmates, inmates with medical or mental health needs, disabled inmates, and limited English proficient populations. MCTC will continue to provide services to inmates with significant mental health needs to include those committed by the courts. This inmate population faces cognitive, mental, and emotional challenges and may exhibit behaviors that make them more vulnerable to the predatory actions of others. This requires MCTC to maintain a higher staff to inmate ratio than other facilities. Although mental health services remain the primary mission at MCTC, the facility is also tasked with providing care and custody to those in the expanded cadre population. Staff in the positions of Warden, Assistant Warden, Chief of Security, Chief of Housing and Programs, Unit Manager, Institutional Program Manager, Operations Manager, Captain, and Lieutenant make unannounced rounds. These rounds are made on both day and night shifts to identify and deter sexual abuse and sexual harassment. Staff are prohibited from alerting other staff members when supervisory unannounced rounds are occurring."

At the time of the staffing plan review, MCTC had 5 vacancies. It was noted that the staffing team that met and discussed the staffing plan feels that the current Post Audit for Marion Correctional Treatment Center Correctional Center is appropriate for the institution. Per the staffing plan review, the staffing at this facility is adequate and meets all Security staffing needs and PREA Standards. At the time of the onsite review, the facility maintained 5 vacancies. Per the Warden this was due to budgetary reasons.

The average daily population since the last PREA Audit is 191. Per the PAQ, the staffing plan is predicated on a population of 371. The auditor reviewed the facility's current staffing plan as well as the most recent staffing plan review. In that review, they have documented that they have considered all the elements from standard 115.13 (a) (1-15) as part of the review. During targeted interviews with the Warden, the PREA Compliance Manager and the Chief of Security, the auditor verified that they review the annual staffing plan and are a part of the review meeting. They closely monitor staffing and any post closures. The Warden verified that if there were an instance where the facility did not comply with their staffing plan, that instance would be notated, including the reason for the shortage and the actions taken.

According to staff and the PAQ, there were instances where they were out of compliance with the staffing plan. The Warden stated that the cameras are very helpful and they do consider the use of CCTV in considering the staffing plan. They regularly do camera reviews and assess areas that need additional coverage.

Marion Correctional Treatment Center has a facility video monitoring system installed throughout the facility. The cameras are used to monitor inmate movement within the facility; it is also used in investigative cases, where staff must review incidents that have been alleged occurred. MCTC is equipped with Max Pro and Rapid Eye Camera Systems. There are cameras in designated areas throughout the facility. Per the staffing plan review, there are a total of 75 cameras on the Max Pro System and 120 cameras on the Rapid Eye System; the total number of operational cameras is 195 located in designated areas throughout the facility. All housing units have cameras

installed to monitor inmate activity in all living areas. Additional cameras are present in the recreation yards, support buildings and front entry. All cameras are connected to the VADOC Rapid Eye System or Max Pro System, which provides continuous recording. Recording capabilities of our current system is approximately 90 days. Viewing capability is available on assigned state issued computers for designated Administrative Duty Officers, Institutional Investigator, Intelligence Officers, and Shift Commander for monitoring purposes. The camera system is IP enabled, allowing Headquarters and OLU viewing capabilities.

There are 18 active Body Worn Cameras, 13 of which are designated for security supervisors to wear when on duty. The remaining 5 cameras are worn by security line staff in the event of planned use of force incidents and specific transportation duties.

Marion Correctional Treatment Center also has a system in place, where supervisors sign a log in each area where inmates and staff may be alone to ensure supervisors make unannounced rounds. Numerous administrative staff have access to utilize the camera monitors. In addition, the Warden, Assistant Wardens, Watch Office and all Administrative Duty Officers have access to view cameras on Max Pro. Video footage for PREA related issues is monitored by the facility's investigative department.

The auditor reviewed the most recent annual review, and the facility's review was in compliance with the elements of 115.13(a). In addition, during the on-site review, the auditor reviewed the deployment of CCTV monitoring. The facility has a camera surveillance system comprised of multiple monitors located in the control room.

These screens are monitored by staff at all times. The most recent review of the staffing plan indicated the video monitoring system and placement of cameras were reviewed.

In accordance with the provisions of the staffing plan, MCTC, in collaboration with the PREA Coordinator and PREA Analyst, reviewed the staffing plan to see whether adjustments are needed to: (a) the staffing plan, (b) the deployment of monitoring technology, or (c) the allocation of facility/agency resources to commit to the staffing plan to ensure compliance with the staffing plan. This was documented on the staffing plan review, and signed and acknowledged by the Warden, PREA Analyst and PREA Coordinator.

The staffing plan appears satisfactory in the agency's efforts to provide protection against sexual abuse and harassment. Adequate staffing was considered to ensure safety for the facility's current and potential population of specialized inmates that require more intensive or specialized staffing, including LGBTI inmates, inmates with medical or mental health needs, disabled inmates, and limited English proficient populations. Propio Language Services and Purple Communications are utilized for translation services when necessary for limited English proficient (Propio) and deaf/hard-of-hearing (Purple) inmates. All staff are trained annually regarding interactions with special populations, such as disabled inmates, limited English proficient populations, inmates with medical or mental health needs, and LGBTI inmates.

The Auditor observed cameras in all areas of the facility. There appeared to be open communication between staff and inmates. The Auditor observed formal and informal

	interactions between staff and inmates. In the PAQ, the agency reports that they conduct unannounced rounds on all shifts. A review of the VADOC policies indicated that policy requires that supervisors will conduct and document unannounced rounds each shift, and that there is a prohibition against staff alerting other staff of the rounds. During the pre-audit phase, the facility provided the auditor a sample of documentation of unannounced rounds for each shift. This documentation sampling verified that unannounced rounds were conducted during all shifts. During the on-site portion of the audit, the auditor reviewed logbooks that verified that unannounced rounds were recorded daily and documented by the supervisors. The Auditor conducted informal interviews with staff and supervisors from various shifts. Staff stated that supervisors do regularly conduct unannounced rounds throughout the facility. Supervisors stated they are required to make at least one unannounced round in all facility areas and on each shift. Higher level supervisors are required to conduct one unannounced round covering each facility area during a one-week period. In order to prevent staff from alerting other staff when they are making unannounced rounds, the Auditor was informed supervisors do not conduct their rounds by any specific pattern. Supervisors stated they conduct their rounds at different times and do not take the same route when touring the facility. It is clear through observation that supervisors and administrators are conducting unannounced rounds. Interviews with supervisors, as well as line staff indicate that the rounds are unannounced and random. The Warden stated that he feels as if the camera coverage is sufficient and they are used in the overall management plan for the facility. The Warden stated that due to the facility's specialized mission, the staff to inmate ratio is higher and that the staff are very proactive in recognizing and dealing with any potential issues that arise. He stated that the staff know the inmates well and are really good about reporting any documenting any changes in behavior. Due to the unique mission of the facility, the staff to inmate ratio is exceptionally good. In addition, the staff at the facility are very good at recognizing any issues and changes in behavior with the inmate population. After a review, the Auditor determined that the facility exceeds the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination:

	1. MCTC Completed PAQ 2. VADOC OP 425.4 Management and Bed Assignments 3. Review of population report on the day of the audit as well as population reports from the previous 12 months 4. Interviews with Staff 5. Memo Interviews with the following: • PREA Compliance Manager Observation of the following: • Site Review Findings: VADOC policy states youthful offenders will not be placed in a housing unit in which the offender will have sight, sound, or physical contact with any adult offender through use of a shared dayroom or other common space, shower area, or sleeping quarters. VADOC policy requires direct supervision by institutional staff when a youthful offender and an adult offender have sight, sound, or physical contact with one another. The agency assigns youthful offenders to a specialized unit to meet these requirements, unless the assignment would create a risk to the safe, secure, and orderly operation of the institution. Youthful offenders may be placed in a restrictive housing unit if exigent circumstances require such. The MCTC does not house youthful offenders. The Auditor interviewed random and specialized staff which indicated no staff had knowledge that a youthful offender had been housed at the facility during this audit cycle. The PAQ, documentation submitted and interviews with staff confirm that there have been no youthful offenders housed at the MCTC within the audit period. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.15	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 445.4, 801.1, 401.2, 350.2, 720.2 3. Logbooks 4. Lesson Plan for Searches

5. Memo
6. Training Rosters
7. Post Orders

Interviews with the following:

- Training staff
- Random Staff
- Medical Staff
- Random Inmates

Observation of the following:

- Observation of inmate housing area
- Observation of CCTV coverage of housing areas and individual protective cells
- Observation of staff announcing the presence of opposite gender staff during site review

Findings:

The VADOC policies are written in accordance with the standards and prohibit cross-gender strip searches and cross-gender visual body cavity searches except in exigent circumstances or when performed by a medical professional. When body cavity searches are performed by medical professionals at least one security staff member of the same sex as the offender is required to be present. Policy prohibits cross-gender pat-down searches of female offenders by male security staff except in exigent circumstances. Staff may not deny female offenders access to regularly available programming or other out of cell opportunities in order to comply with this standard. Before conducting any cross-gender search, approval must be obtained from the Shift Commander with notification to the Administrative Duty Officer and the Regional PREA Analyst. Policy requires searching staff to complete and submit an Internal Incident Report after conducting a cross-gender search of an offender. The VADOC permits female security staff to conduct cross-gender pat-down searches of male offenders. Policy requires all cross-gender searches be documented. Staff are required to conduct cross gender frisk searches and searches of transgender and intersex offenders in a professional and respectful manner and in the least intrusive manner possible consistent with security needs.

The MCTC holds male offenders.

The agency does not conduct cross-gender strip or cross-gender visual body cavity searches of inmates. VADOC policy states that strip searches of inmates and CCAP probationers/parolees by DOC employees of the opposite gender from the inmate or probationer/parolee or the gender indicated on their approved Strip Search Deviation Request may only be conducted when there is an immediate threat to the safe, secure, orderly operation of the facility and there is no other available alternative. Prior to conducting the search, the Shift Commander must approve the search and will be responsible to notify the ADO and the Regional PREA Analyst. Interviews with staff confirm this practice.

Interviews with facility staff, including medical personnel indicate operational practice is consistent with this policy. Per the PAQ, in the past 12 months, the number of

cross-gender strip or cross-gender visual body cavity searches of inmates: 0

The auditor observed the areas where strip searches occur and found them to be adequate in providing privacy from viewing by female staff or incidental viewing by anyone not performing the strip search.

VADOC Operating Procedure states that inmates are able to shower, change clothes and perform bodily functions without nonmedical staff of the opposite gender viewing their breasts, buttocks or genitalia, except in exigent circumstances or incidental to routine cell checks. The toilet and shower areas are adequately private. A review of CCTV coverage in common areas, bathroom areas and individual protective cells revealed that the cameras were pointed away from toilet areas or covered. Inmate interviews revealed that the inmates felt as if they have sufficient privacy to change and shower without female staff being able to view them undressed. MCTC is in compliance with the provisions of the standard.

The VADOC Operating Procedure states that staff of the opposite gender shall announce their presence when entering an inmate housing unit as described in institution post orders or written guidelines. There are multiple safeguards in place to ensure that this is occurring. There are announcements made regularly and this is logged in the logbook. Staff interviews indicate the offenders' privacy from being viewed by opposite gender staff is protected. Current procedures in place at MCTC afford offenders appropriate privacy while still affording staff the ability to appropriately monitor safety and security. Cameras are placed appropriately so that shower and toilet areas are not in direct view. The auditor observed all areas in the facility where inmates may be in a state of undress and concluded that these areas are sufficiently private to prevent viewing by female staff.

Inmate interviews revealed that in response to asking if female staff make announcements:

- 18 inmates stated that staff consistently announce
- 1 inmate stated that staff sometimes announce
- 1 inmate stated that he had not heard staff announce

All 20 inmates stated they had never been naked in full view of staff and felt they had sufficient privacy.

Per VADOC policy, security staff shall be trained on how to conduct cross-gender frisk searches in a professional and respectful manner, in the least intrusive manner possible. These searches shall be consistent with security needs. Routine strip searches or visual body cavity searches will occur in authorized areas and searches based on reasonable suspicion require the Warden's authorization. The Auditor reviewed the training records for MCTC and found that all staff are trained in accordance with the policy.

The search procedure training outline indicates the following: Strip searches of inmates by opposite gender staff may be conducted when there is an immediate threat to the safe, secure, orderly operation of the facility and there is no other available alternative. Approval must be obtained from the Shift Commander prior to

	conducting the search with notification to the Administrative Duty Officer and the Regional PREA Analyst. An Internal Incident Report must be submitted in accordance with Operating Procedure 038.1, Reporting Serious of Unusual Incidents. One Corrections Officer and one other DOC employee both of whom are of the same gender as the inmate or of the gender indicated on the approved Strip Search Deviation Request will accompany the inmate into an appropriate area where privacy can be ensured. Interviews with officers confirmed these practices and that staff had been trained on appropriate search procedures. During the pre-audit portion of the audit, the auditor reviewed the training presentation that is provided to all employees regarding how to conduct cross-gender pat down searches. According to the PAQ, 100% of all employees hired in the last 12 months received the required training. The Training staff also provided training rosters for facility staff. During the on-site document review of employee files, the auditor verified the documents in the employee files provided during the pre-audit phase. VADOC policies require all staff to be trained on how to conduct cross-gender searches. Staff indicated that they are trained to do cross-gender searches at the academy. A targeted interview with the training coordinator indicates officers are trained on how to do searches during their initial training, as well as during in-service. The Auditor reviewed the training outline and found it to be in compliance with the standard. The training coordinator provided the auditor with a print out of all completed in-service for the previous year (2025) and thus far for the current year. During the random staff interviews, employees recalled being provided training on how to perform cross-gender pat down searches. Interviews indicate that the officers understand how to conduct cross-gender searches in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

10. Propio Contract thru 12-31-26

Interviews with the following:

- PREA Compliance Manager
- Random Staff
- Classification Staff
- Intake Staff
- Inmates who have limited English proficiency and other disabilities

Observation of the following:

- Observation of posted information in facility

Findings:

The MCTC, in accordance with VADOC Operating Procedures takes appropriate steps to ensure that offenders with disabilities, including those who are deaf, blind or have intellectual limitations have an equal opportunity to participate and benefit from all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and harassment. VADOC Operating Procedure is written in accordance with the standard and indicates that during intake, offenders determined to have disabilities will have accommodations made to ensure that materials are received in a format or through a method that ensures effective communication. Interviews with the PCM and Intake staff indicate that MCTC ensures that any offenders with significant disabilities that required any special accommodations would be identified at intake and referred to the PCM/ADA Coordinator. Staff would ensure the offender was able to fully participate and benefit from all aspects of the facility's efforts to prevent and/or respond to sexual abuse and harassment. Staff are typically aware if they are receiving an inmate with special needs and will make accommodations as necessary. The agency's Zero Tolerance for Sexual Abuse and Sexual Harassment handbook for inmates is distributed to each inmate upon arrival at the facility.

MCTC is a special purpose institution within DOC, and also serves as a mental health hospital, housing inmates at multiple security levels and offering acute care psychiatric and residential services. As such, the staff are very cognizant of the special needs of the population.

Interviews with staff, including supervisory staff and intake officers confirm that they have a process in place to ensure that all inmates, regardless of disability would have equal access to PREA information. The Auditor observed PREA informational posters throughout the facility, in visible locations in both English and Spanish. Spanish is the prevalent non-English language in the area. During interviews with staff responsible for intake and classification, they ensured that inmates with disabilities were provided

access to the PREA program. Staff indicated that any situations requiring accommodations would be handled on a case-by-case basis.

The staff are generally aware of the availability of interpretive services for LEP inmates. The facility has the PREA brochure in a variety of formats, including braille, large print, and information for deaf or hard of hearing.

Staff will read the PREA information provided during Intake for inmates who are blind or have low vision or who cannot otherwise read or understand the information. The PREA video is both audible and closed captioned for those who may be deaf or blind. A staff member conducts an individual session with each inmate to ensure the inmate receives and understands the agency's PREA information and will make a referral to Psychology staff if necessary. The VADOC has a current contract with Purple Language Services to provide Sign Language services to hearing impaired inmates.

VADOC Operating Procedure indicates that offenders who are limited English proficient have access to all aspects of the facility's efforts to prevent, detect and respond to sexual abuse and harassment, including providing interpreters. The Auditor determined through staff interviews and a review of the contract that the MCTC has interpreters available for limited English proficient offenders using a telephone-based interpreter service, Homeland Language Interpretation Translation Services. There are also a few bilingual staff that can assist with translation. At the time of the onsite review, there were no inmates identified as LEP.

During the on-site portion of the audit, the Auditor was able to speak with inmates identified in the following categories: deaf or hard of hearing, cognitive disability, blind, and physically disabled. During the targeted interviews, the inmates were able to answer the auditor's questions and were aware of PREA. The inmates indicated they had been provided PREA education and knew how to report instances of sexual abuse and harassment. Interviews with these inmates revealed the following:

- 1 hearing impaired inmate stated that he didn't need any accommodation for conversation.
- 1 vision impaired inmate stated that he did not need any accommodations but knew he could request if needed.
- 2 inmates in a wheelchair stated that they did not need any specific accommodations. Telephones and signage were at a level that they are able to use without assistance.
- 17 inmates who were reported to have cognitive issues stated that they knew what PREA was and how to report.

Only 5 of the inmates interviewed by the auditor had arrived at the facility within the last 12 months. But they were all aware of the PREA hotline and stated that they felt comfortable speaking to staff.

MCTC offers the PREA Education video with closed captioning. Staff can also communicate with hearing impaired or deaf inmates through written communication. The Purple machine is also available to provide sign language to deaf or hearing-impaired inmates.

	The VADOC Operating Procedure prohibits the use of inmate interpreters except in instances where a significant delay could compromise the offender's safety. Interviews with staff indicate that offenders are not and would not be used as interpreters. During the random staff interviews, no staff member said it was appropriate to use an inmate interpreter when responding to allegations of inmate sexual abuse due to confidentiality issues. According to the targeted interview with the PCM as well as the PAQ, there were no instances of the use of an inmate interpreter even in exigent circumstances. Per the PAQ, in the past 12 months, the number of instances where inmate interpreters, readers, or other types of inmate assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the inmate's safety, the performance of first-response duties under §115.64, or the investigation of the inmate's allegations: 0 The facility has the PREA related information and handouts in a multitude of formats. Inmates are required to sign the Preventing Sexual Abuse and Assault Training acknowledgement form for verification of receipt of the inmate handbook and PREA education. The Auditor reviewed examples of these forms in both English and Spanish. Staff complete an ADA In-Service training, which is in addition to all annual required training. The auditor was provided certificates of training for staff on this topic. After a review, the Auditor determined the facility exceeds the requirements of the standard. Corrective Action: None

Review of randomly selected volunteer files 8. Background Information on Contract Employees hired within the last 12 months 9. Employment application 10. VCIN Transaction Report

11. Background verification

12. Interviews with PREA Coordinator, Investigator and Human Resources

Findings:

The MCTC does not hire any staff that has engaged in sexual abuse or harassment as stipulated in the standard. The language in the policy is written consistently with that in the standard. The Auditor reviewed the background packet and interview questions used by the VADOC and MCTC and found that they are asking these questions during the interview process to determine if they are hiring anyone who has engaged in prohibited conduct. All applicants apply for any positions online and included on the application is three required PREA questions in accordance with the standard. If any of those questions are answered with a "yes," the system will automatically disqualify the application. MCTC conducts a VCIN check, and if the applicant is selected for employment, the file will be forwarded to the background investigation unit in Richmond. Staff indicated that the background investigator thoroughly vets any prospective employee and asks directly about previous misconduct as required by the standard. The document review conducted by the auditor during the pre-audit phase and on-site, as well as interviews with the PREA Compliance Manager, Warden and Human Resources Manager confirmed that they have complied with this policy and no employee with such a history has been hired during the audit period.

MCTC will consider any instances of sexual harassment in determining whether to hire or promote anyone, or enlist the services of contractors who may have contact with inmates. A targeted interview with Human Resources stated that instances of sexual harassment would be a factor when making decisions about hiring and promotion.

Every employee and contractor undergo a background check and is not offered employment if there is disqualifying information discovered.

There is a written policy that requires inquiry into a promotional candidate's history of sexual abuse or harassment. Documentation reviewed supports compliance with the standard in accordance with agency policy. During the on-site portion of the audit, the Auditor reviewed files of employees that were hired in the last 12 months. All the employees' files contained background checks and pre-employment questionnaires where employees were asked the questions regarding past conduct and their answers were verified by a background investigation. The auditor also reviewed files of employees who were promoted in the last 12 months. Per Human Resources, the same process is followed for promotions, including completion of the application, VCIN and background investigation. The acknowledgement was completed for employees who had participated in the promotional process. Human Resources stated that employees are asked this information annually on the PREA disclosure form.

Per the PAQ, in the past 12 months, the number of persons hired who may have contact with inmates who have had criminal background record checks is 42.

VADOC Operating Procedure requires inquiry into the background of potential contract employees regarding previous incidents of sexual assault or harassment. Consistent

with agency policy, all employees and contractors must have a criminal background record check prior to employment. Staff at the background investigation unit at DOC headquarters complete criminal background checks for all prospective applicants and contractors, prior to being offered employment. Verification of the background check is sent to the Human Resource staff at MCTC when completed. Human Resource staff verified this information in interviews discussing the background process. The auditor reviewed examples both during the pre-audit phase and during the onsite file review. A review of personnel records by the Auditor found that all contractors and volunteers have had a background investigation and answered the PREA related questions as required by the standard.

The Human Resource Manager stated that the process is essentially the same for contract employees with respect to background checks and ensuring compliance with the standard.

Per the PAQ, in the past 12 months, the number of contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with inmates: 0

The auditor reviewed documentation of background checks for contract staff. The PAQ indicates that there are 3 individual contractors for NCTC.

Human Resources stated that if a prospective applicant previously worked at another correctional institutional, they make every effort to contact the facility for information on the employee's work history and any potential issues, including allegations of sexual assault or harassment, including resignation during a pending investigation. This is done by the background investigative unit and this information would be included in the background report. The Auditor reviewed background investigations for staff that had been previously employed at a correctional facility. The background investigation report notated that all PREA related checks had been completed.

In accordance with the standard, VADOC Operating Procedure requires background checks be conducted on facility staff and contract staff a minimum of every five years. MCTC does five-year background checks in accordance with the standard.

Documentation of five-year background checks was provided by the facility and reviewed by the auditor. There is a spreadsheet maintained by the Human Resources Department at the facility, listing all employees. This list includes date, pre-employment check date, five-year background date and any promotional process dates when background checks were completed. Targeted interviews with facility administrators revealed that an employee engaging in any type of misconduct such as listed in the standard would not be retained.

The MCTC asks applicants and contractors directly about misconduct as described in the standard using a Self-Declaration form during the application process. These forms are maintained in their respective personnel files. The Auditor reviewed random files and verified these forms are being completed. Interviews with staff indicated that the forms are being completed as required by the standard and agency policy. VADOC Operating Procedure stipulates a continuing affirmative duty to disclose any

	PREA related misconduct. All current and new staff are trained on the PREA policy, as well as annual refresher training. Training records verifying that employees acknowledge that they have read and understand the policy were reviewed by the auditor. In accordance with the standard, policy stipulates that material omissions regarding such conduct, or the provision of materially false information shall be grounds for termination. Interviews with staff verified that the MCTC would terminate employees for engaging in inappropriate behavior with inmates, upon learning of such misconduct. The MCTC uses a disclosure/acknowledgement form that asks the required questions of applicants to determine prior prohibited conduct. The hiring process includes requiring the investigator to make his/her best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. After a review, the Auditor determined the facility exceeds the requirements of the standard. Corrective Action: None

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC OP 801.1 3. Schematic of facility 4. Interviews with staff 5. Observation of camera placement and footage 6. Interviews with Warden, Chief of Housing and Programs and Chief of Security Findings: The facility has not acquired a new facility but is in the process of making substantial expansion to the existing facility. MCTC currently has an ongoing major construction renovation, which includes new windows, doors, camera systems, and HY AC systems in the entire main building in addition to a new maintenance warehouse. This extensive project is estimated to continue for approximately two years. Four Corrections Officers are assigned to escort contractor crews throughout the facility. This was confirmed through interviews with multiple staff, as well as the onsite review of the facility. The facility has taken appropriate precautions to ensure that any

areas under construction are not accessible to the inmate population.

MCTC is equipped with the Rapid Eye Camera System and Max Pro Camera System. There is a total of 75 cameras on the Max Pro System and 120 cameras on the Rapid Eye System; the total number of operational cameras is 195 located in designated areas throughout the facility. All housing units have cameras installed to monitor inmate activity in all living areas. Additional cameras are present in the recreation yards, support buildings and front entry. All cameras are connected to the VADOC Rapid Eye System or Max Pro System, which provides continuous recording. Recording capabilities of our current system is approximately 90 days. Viewing capability is available on assigned state issued computers for designated Administrative Duty Officers, Institutional Investigator, Intelligence Officers, and Shift Commander for monitoring purposes. The camera system is IP enabled, allowing Headquarters and OLU viewing capabilities.

There are 18 active Body Worn Cameras, 13 of which are designated for security supervisors to wear when on duty. The remaining 5 cameras are worn by security line staff in the event of planned use of force incidents and specific transportation duties.

A targeted interview with the Warden indicates that he feels that the camera coverage is sufficient to protect inmates from sexual abuse. He stated that MCTC is always evaluating the camera coverage in the facility and will make recommendations as needed to increase the coverage and eliminate any potential blind spots. The facility is in the process of completing a camera upgrade in conjunction with the construction project to ensure camera coverage of all areas of the facility, including adding cameras and continually evaluating any potential blind spots.

Per a memo from the Warden dated June 3, 2026, "Due to the age of the main building and physical plant issues, the facility is currently undergoing major construction renovation. This includes new windows, doors, HV AC systems, and additional cameras. In addition to the new cameras monitoring mental health inmates for self-injurious behaviors, etc., they will also aid in the prevention of inmate sexual abuse and sexual harassment."

Per interview with the Warden and PCM, when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, MCTC considers how such technology may enhance MCTC's ability to protect inmates from sexual abuse. The Warden indicated that MCTC reviews the cameras routinely to ensure they are operational. The auditor reviewed camera placement during the on-site review, as well as camera monitors and views of areas in the facility, and a listing of all cameras.

After a review, the Auditor determined the facility meets the requirements of the standard.

115.21	Evidence protocol and forensic medical examinations
	Auditor Overall Determination: Meets Standard Auditor Discussion Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 030.4, 720.7, 038.3, 730.2, 030.1 3. Investigative Matrix 4. MOU with Action Alliance 5. Documentation of forensic exams 6. Review of incident logs Interviews with the following: • PCM • Investigator • Warden • Medical personnel • SANE Nurse Findings: In accordance with agency policy and the PREA standards, the facility offers all inmates who experience sexual abuse access to forensic medical examinations. Policy states that: E. If evidentiary or medically appropriate, inmate or CCAP probationer/parolee victims of sexual assault are referred under appropriate security provisions to an outside facility for treatment and gathering of evidence. (5-ACI-6C-14) 1. A history is taken by a health care professional who will conduct a forensic medical examination to document the extent of physical injury. Such examinations will be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. There will be no financial cost to the inmate or CCAP probationer/parolee victim for this examination. (§115.21[c], §115.221[c]) a. As requested by the inmate or CCAP probationer/parolee victim, a victim advocate, qualified DOC staff member, or a qualified community-based organization staff member will accompany and support the inmate or CCAP probationer/parolee victim through the forensic medical examination process and investigatory interviews and will provide emotional support, crisis intervention, information, and referrals. (§115.21[e], §115.221[e]) A qualified DOC mental health/counseling staff member or a qualified community-based staff member must be an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination issues in general. (§115.21[h], §115.221[h]) b. With the inmate or CCAP probationer/parolee victim's consent, the examination includes the collection of evidence from the inmate or CCAP probationer/parolee victim, using a method approved by the appropriate authority.

- i. A Physical Evidence Recovery Kit (PERK) is recommended.
 - ii. Although recommended that the PERK be used within 120 hours, it will be used beyond that time whenever there is a possibility of evidence remaining.
 - c. If the inmate or CCAP probationer/parolee alleging assault refuses to be examined, it will be documented in their health record and the inmate or CCAP probationer/parolee will sign a Health Services Treatment Consent/Refusal 720_F44.
 - d. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The facility Health Authority or designee will document the facility's efforts to provide SAFEs or SANEs.
2. Provision is made for testing of sexually transmitted illnesses (STI's), e.g., HIV, gonorrhea, hepatitis, and other diseases, and counseling, as appropriate.
 3. Prophylactic treatment and follow-up for STI's are offered to all inmate or CCAP probationer/parolee victims, as appropriate.
 4. Following the physical examination, a mental health professional will assess the need for crisis intervention counseling and long-term follow-up; see Operating Procedure 730.2, Mental Health and Wellness Services: Screening, Assessment, and Classification. A phone call must be made to the facility Unit Head or designee to determine separation of the inmate or CCAP probationer/parolee victim and their assailant.
- VADOC Operating Procedure stipulates that all victims of sexual abuse shall be offered a forensic medical exam, without financial cost including prophylactic testing/treatment for suspected STIs. In most cases these exams would be performed at the facility through the agency's contract with Ballard Health. The Auditor reviewed the contract agreement with Ballard Health. The current contract is in effect until February 2027. Per the terms of the contract, the contractor shall:
1. Provide qualified, nationally registered, Virginia licensed Sexual Assault Nurse Examiners (SANEs) / Forensic Nurse Examiners (FNEs) to perform sexual assault examinations on offenders who are potential victims at the Keen Mountain Correctional Center, Red Onion State Prison, Wallens Ridge State Prison, Marion Correctional Treatment Center, Appalachian Detention Center and Wise Correctional Unit. Facilities may be added or removed as mutually agreed upon.
 2. Make available a SANE / FNE to provide services 24 hours per day, 7 days per week.
 3. Provide DOC Medical Departments with Mountain States Health Alliance d/b/a Russell County Hospital contact phone numbers and other relevant information deemed appropriate.
 4. Provide clinical oversight with medical direction by a qualified Virginia licensed emergency physician.
 5. Dispatch a FNE with a state approved evidence collection kit to the identified DOC facility. The FNE shall arrive at the DOC facility within four (4) hours after the DOC's initial call to the Contractor.
 6. After completion of the exam, the FNE shall complete the required documentation and submit the evidence kit to the DOC for transport via Virginia law enforcement to an appropriate crime lab for analysis.
 7. Make the FNE available for any legal proceedings resulting from the evaluated

assault.

Examinations will be conducted by qualified SANE/SAFE experts in accordance with the guidelines of the National Protocol for Sexual Assault Medical Forensic Examinations from the Department of Justice. Persons performing these exams will be Registered Nurses licensed by their respective State Board of Nursing and possess training and/or certification in the Sexual Assault Nurse Examination or a Physician with training specific to the sexual assault medical forensic examination. The availability of these services was confirmed by the Auditor with the Medical staff, the SANE Nurse, as well as the OLES Investigator. They indicated that there was a SANE/SAFE nurse available 24 hours per day and 7 days per week and there would be no charge to the victim for this exam. Medical staff at the facility do not conduct forensic examinations. This was confirmed by the medical supervisor and PREA Compliance Manager.

The MCTC reported on the PAQ and through memo that there were no forensic exams conducted during the past 12 months. This was confirmed by the medical supervisor and the PREA Compliance Manager.

VADOC is responsible for both administrative and criminal investigations. The agency follows a uniform protocol for investigating allegations of sexual abuse that maximizes the possibility of collecting usable evidence and trains facility staff who may be first responders in this protocol. A review of the agency's policies and procedures on evidence protocol indicated the agency has included the elements of this standard in its policies and procedures. Interviews with MCTC staff indicate that they are trained and familiar with the evidence protocol and what to do if they are the first responder to a sexual assault.

MCTC trained investigators conduct administrative investigations. All allegations of sexual abuse and sexual harassment that appear criminal in nature are reported to the Office of Law Enforcement Services (OLES) for investigation. Facility staff are required to preserve any crime scene until the OLES Investigator arrives to collect or process physical evidence from the scene. According to interviews with random staff, there are multiple facility investigators trained to conduct sexual assault investigations. In addition, the PREA Compliance Manager would be notified. A targeted interview with one of the facility investigators indicated that in the instance of an allegation referred to the OLES, the facility would conduct a simultaneous administrative investigation and maintain communication with the OLES Investigator. The auditor completed a targeted interview with the OLES investigator. She stated that any cases involving staff or that are or could be criminal in nature are referred to OLES for investigation.

The MCTC does not hold youthful offenders.

VADOC Operating Procedure indicates they will make a victim advocate from a rape crisis center available to an inmate victim of sexual assault upon request. The MCTC, through VADOC has an MOU with Virginia Sexual and Domestic Violence Action Alliance to provide services to the facility. They are available to serve as a victim advocate to victims of sexual assault at the MCTC. The MOU was provided to the

	Auditor for review. As stipulated in the MOU, Action Alliance is available to provide an advocate to accompany and support the victim through the forensic exam process, if requested and shall provide any needed or requested emotional support or crisis intervention services. VADOC Operating Procedure stipulates these services are available. The auditor conducted a telephone interview with an advocate at Action Alliance and verified the availability of these services. The advocate stated that all advocates have had PREA training and are screened to ensure they do not have a history of perpetrating sexual violence. The MOU with Action Alliance covers VADOC facilities and provides a statewide toll-free Hotline for reporting sexual abuse or assault, to victims who desire an external method of reporting. In accordance with the Action Alliance confidentiality and release information policies, the calls are confidential. If the victim agrees to the release of information, Action Alliance will immediately forward any report of sexual abuse or assault to the Regional PREA/ADA Analyst and maintain a record of calls from VADOC victims. They provide confidential crisis intervention and emotional support services related to all sexual abuse or assault to the victims. Targeted interviews with the PREA Coordinator, PREA Analyst, and Investigator also confirmed that the MOU was in place. The MOU is a renewal of a previous one and is effective September 1, 2025, for one year with an option to renew. There have been no requests for an advocate at MCTC during this review period. The auditor also reviewed documentation of training provided to the Action Alliance staff on PREA. The VADOC has standardized this process across the state. All suspected criminal PREA allegations are referred to OLES, receiving guidance from them to ensure all allegations are handled appropriately. In addition, the VADOC has a statewide contract and MOU with Action Alliance to ensure that advocacy services are available to all inmate victims of sexual assault. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

Interviews with the following:

- PREA Coordinator
- PCM
- Investigative Staff
- Random Inmates

Findings:

The VADOC Operating Procedure is written in accordance with the standard and requires that an investigation is completed for all allegations of sexual abuse and harassment. Policy also dictates that allegations are referred for a criminal investigation, if warranted. The PREA Compliance Manager, supervisors and Investigators work very closely together to ensure that all allegations of sexual abuse and harassment are investigated promptly and thoroughly. If an offender alleges a sexual assault or sexual harassment has taken place, the staff member will notify the supervisor, who will take the initial report and refer it to one of the investigators for further action. The Investigator coordinates with the PCM and supervisors to determine the course of action. The Warden and PREA Analyst would also be notified.

The OLES conducts all criminal investigations for the MCTC and the VADOC and will be notified by the Investigator if there is suspected potential criminal charges. The OLES agent is a certified law enforcement officer and has the legal authority to arrest and place criminal charges on persons at the institution. During a targeted interview with an agency OLES Investigator, she explained the investigative process and indicated that she works closely with the facility investigators. The facility investigators will do much of the preliminary work and consult with OLES to determine next steps.

If the OLES Investigator determines there may be insufficient evidence for prosecution, it is referred to the facility Investigator for an administrative investigation. If a case appears to be prosecutable, the OLES will consult with the Commonwealth's Attorney on prosecutorial efforts. The investigator stated that the Commonwealth Attorney will look at each case on its own merits and decide what action to take.

The VADOC Operating Procedure is posted on the website under the PREA section.

Targeted interviews with the PREA Analyst, Investigator, PREA Compliance Manager and Warden verified that all allegations of sexual abuse or harassment are investigated promptly and thoroughly. They described the process for investigations, which is a collaborative approach. According to the interviews, once an allegation is received, it is referred for investigation based upon the type of allegation. In the case of a sexual abuse allegation, the first responders and supervisory personnel would initially take action to separate the alleged victim and perpetrator and takes steps to preserve any evidence. The on-duty supervisor would brief the PCM and depending

	on the situation, initiate a call to the OLES to begin a criminal investigation. All reports of sexual abuse or harassment are evaluated by the first responders and supervisors in coordination with the PCM and a determination is made whether to initiate a criminal investigation. If there is no exigency and no evidence that a crime has occurred, the facility initiates an administrative investigation. The incident is investigated and if during the investigation, it is determined that there is evidence to support a crime was committed, the investigator will consult with the OLES as necessary. If there is no evidence that a crime was committed, then the investigation is completed as an administrative investigation by the facility investigator. Interviews with staff indicate they are aware of their responsibility to investigate every allegation, refer the allegation if it involves criminal behavior and notify the PREA Compliance Manager of all allegations. The VADOC Regional PREA Analyst and PREA Coordinator maintain oversight of facility investigations. Per the PAQ: In the past 12 months, the number of allegations of sexual abuse and sexual harassment that were received: 3 In the past 12 months, the number of allegations resulting in an administrative investigation: 3 In the past 12 months, the number of allegations referred for criminal investigation: 0 The MCTC reports there have been 3 total allegations of sexual abuse or harassment in the past 12 months. A review of the investigative files indicate that the allegations were promptly and thoroughly investigated in accordance with both VADOC policy and the provisions of the standards. There have been no allegations in the past 12 months that warranted referral for criminal investigation. In accordance with the standard, MCTC would refer any criminal allegations of sexual abuse and sexual harassment to the OLES office who maintains the legal authority to conduct criminal investigations in the facility. VADOC Operating Procedure requires that all sexual assault allegations that involve evidence of criminal behavior be referred for criminal prosecution. Documentation of such is contained in the investigative reports. The auditor reviewed the VADOC website and the agency policy is posted and publicly available. During an interview with the facility investigator, he verified that investigations that revealed criminal behavior would be referred to the OLES Investigator and subsequently to the Commonwealth Attorney for prosecution. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

Interviews with Random Staff, PREA Coordinator, PCM, and Training Coordinator Findings: The VADOC Operating Procedure is written in accordance with the standard and includes all required topics and elements of the standard. In accordance with the standard the DOC will train all employees who may have contact with offenders on: a. Its zero-tolerance policy for sexual abuse and sexual harassment b. How to fulfill their responsibilities under DOC sexual abuse and sexual harassment prevention, detection, reporting, and response procedures c. The offenders’ right to be free from sexual abuse and sexual harassment d. The right of offenders and employees to be free from retaliation for reporting sexual abuse and sexual harassment e. How to communicate effectively and professionally with offenders, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming offenders j. How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities Policy requires that all employees, contractors, and volunteers who have contact with inmates receive training. According to the policy, mental health and medical personnel receive specialized training. The training is tailored for both male and female inmates. Employees who are reassigned from facilities housing the opposite gender are given additional training. The facility provides PREA training each year to all employees to ensure they remain up to date on the VADOC policies and procedures regarding sexual abuse and harassment. Each employee completes this training annually during the required In-Service Training. In addition to taking a quiz on the information, each employee signs a verification acknowledging they have received and understand the information. The Auditor reviewed the training curriculum and verified it included all information and each element required by the standard. The Auditor reviewed the training

rosters to verify and ensure all employees are receiving the training. During the pre-audit period, the Auditor reviewed the training documentation submitted by the facility. In addition, during the on-site portion of the audit, the auditor verified the training of staff, which includes contractors, by reviewing the training logs for all employees who had received training for the previous and current year, as well as individual training files. Each employee also signs a PREA Acknowledgment indicating their receipt of and understanding of the PREA training, which is maintained in their file.

The statewide PREA Coordinator distributes a monthly PREA Newsletter to all VADOC personnel to enhance PREA knowledge. The Auditor was provided and reviewed examples of these newsletters.

New staff are given PREA training during their orientation, before assuming their duties. All new staff take a quiz and sign a verification acknowledging they have received the information. This information is on Day 1 of their institutional orientation. During interviews with the PCM and Training staff, they confirmed that no employee is permitted to have contact with inmates prior to receiving PREA training during orientation.

The Auditor reviewed the following rosters: PREA In-service for 2025 and 2026, PREA Orientation Training 2025, New Employee Search Training 2025, In-Service Search Training for 2025 and 2026, and the Basic Correctional Officer (BCO) Training for 2025 and 2026. The facility reported that all staff currently employed at the facility who may have contact with inmates have been trained. The Auditor reviewed MCTC training records for the last 12 months to verify all staff had been provided annual in-service training and a signed PREA Training Acknowledgement form was on file for each staff member.

Based upon an interview with the training coordinator, all active employees at MCTC have completed the required training. The auditor was provided with and reviewed copies of the agency's PREA curriculum, training logs, and training acknowledgement forms. The training curriculum meets all requirements of the standard. Random staff interviews indicate staff have received and understand the training received.

The Auditor conducted interviews with random and specialized staff. All staff interviewed indicated that they had received training and were able to articulate information from the training. During the staff interviews, all employees recalled having annual PREA training. Many staff also stated that PREA related topics are often discussed in roll-call and they will frequently get PREA informational emails from the PREA Coordinator. Staff appear to understand their responsibilities regarding the standards. The staff are appropriately trained, and all documentation is maintained accordingly.

PREA training is conducted on an annual basis during in-service, versus every two years as required by the standard.

After a review, the Auditor determined the facility exceeds the requirements of the standard.

Contractor/Volunteer Outline 6. Guide to Maintaining Boundaries 7. Contractor training with log 8. Volunteer training with log 9. Review of Training Files 10. Volunteer orientation 11. Action Alliance PREA Training Interviews with the following: • PCM • Contract Staff • Training Coordinator Findings: The VADOC Operating Procedure is written in accordance with the standard and requires that all volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection, and response. MCTC ensures that all contract staff receive training regarding PREA. This training is required to be completed in person prior to contact with any inmates. The facility provides PREA training annually to each contract employee to ensure they remain up to date on the VADOC policies and procedures regarding sexual abuse and harassment. A directive for the VADOC states that the level and type of training provided to volunteers and contract staff shall be based on the services they provide and the level of contact they have with offenders. Contractor/volunteer job functions with require inmate contact receive the full training on responsibilities to prevent, detect, monitor, and report allegations and incidents of sexual abuse and sexual harassment of offenders. This training is the same that is provided for all new hires in VADOC facilities. The contractor/volunteer shall sign certifying their understanding of the training material. Volunteers and contractors with less constant contact with inmates

are required to participate in a one-time training which includes PREA.

In accordance with VADOC policies and directives, contract staff complete the same training as the MCTC staff and signs a PREA Acknowledgment indicating their receipt of and understanding of the PREA training. Per an interview with the Training Coordinator, all staff, including contractors receive annual training on PREA.

The Auditor reviewed the training curriculum and verified it included all information required by the standard. The Auditor reviewed the training rosters, as well as random training files to verify and ensure all contracted employees are receiving the training. New contractors and volunteers are given PREA training during their orientation before assuming their duties and sign a verification acknowledging they have received the information. During the document review, the auditor was able to verify that the contractors who had been trained were required to sign an acknowledgement that they had received and understood the PREA training. The auditor reviewed the files of contract employees and verified that the signed training acknowledgement form is retained in their files. In addition, during targeted interviews with Human Resource staff, they verified that training acknowledgements were retained in the files, which is a standardized process for VADOC.

The Auditor conducted interviews with contracted staff. During targeted interviews with contract staff members, each of the interviewees told the auditor that they recalled having the PREA training and knew of the MCTC's zero-tolerance policy against sexual abuse and harassment. In addition, they could articulate what to do if an inmate reported to them. When asked what would be the consequence if they violated the PREA policy, they stated they would be terminated and removed from the facility. They were also aware that they could potentially receive criminal charges. The contract staff were knowledgeable regarding the PREA information they had received. Staff appear to understand their responsibilities regarding the standards. The MCTC is providing training in accordance with the standard and the documentation is maintained accordingly.

The auditor was not able to speak with a volunteer for MCTC during the onsite review.

The auditor reviewed the training curriculum for volunteers and found that the information provided meets the requirements of the standard. All volunteer files reviewed contained confirmation of PREA training and included the Volunteer Confidentiality and Policy Agreement Training Certification verifying receipt and understanding of PREA training. The auditor interviewed the staff member responsible for the volunteer training and maintenance of the files. The staff member stated that the orientation process for volunteers included a video and PowerPoint and each volunteer signs an acknowledgement.

The facility reports on the PAQ that there are 238 volunteers and contractors who may have contact with inmates, who have been trained in agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection, and response.

	Volunteers and contractors all receive PREA training. The contract staff receive the same training as the facility staff. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.33	Inmate education
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 810.1 3. Review of inmate training materials 4. Review of inmate training documentation 5. Inmate Handbook 6. Sampling of inmate files comparing intake date, the date of initial screenings, and the date of comprehensive screening 7. Inmate Brochure and acknowledgement 8. Logs of Completion of inmates provided Comprehensive Education Interviews with the following: • PCM • Random Inmates • Intake Staff Observations of the Following: • PREA informational Posters throughout the facility in inmate housing and common areas • Inmate Intake Process Findings: The VADOC Operating Procedure is written in accordance with the standard. In accordance with policy, offenders receive information regarding the facility and agency's zero tolerance policy. This information, in the form of a brochure, along with the inmate handbook and informal posters, provides offenders with information regarding sexual abuse and assault, the agency's zero tolerance policy and how to report incidents of sexual abuse or harassment. Policy states that, "All inmates and CCAP probationers/parolees newly received into the DOC will receive information explaining the DOC's Zero Tolerance Policy for sexual abuse and sexual harassment and instructions on how to report incidents or

suspicious of sexual abuse or sexual harassment. The information provided to newly received inmates and CCAP probationers/parolees must include the following topics: i. Definition of sexual misconduct/assault and the behaviors prohibited by staff, contractors, volunteers, interns, inmates, and CCAP probationers/parolees; ii. DOC Zero Tolerance Policy; iii. Prevention/Intervention; iv. Self-protection; v. Reporting sexual abuse/assault/harassment; vi. Treatment and counseling; vii. Inmate and CCAP probationer/parolee sexual abuse hotline number #55; viii. Free emotional support through sexual abuse hotline number #55, option. Staff will communicate this information verbally and in writing."

The MCTC PAQ reported that during the last year 202 offenders were committed to the facility and given PREA information at the time of intake, in accordance with the standard. Targeted interviews with multiple staff indicated that this information is communicated to the offenders verbally and in writing upon arrival at the facility.

Offenders will receive a PREA brochure upon intake that advises the inmate of their right to be free from sexual abuse and sexual harassment, and various ways to report. Staff verify that inmates understand the information and would identify any inmates that may need an accommodation to fully participate in the PREA program at MCTC. Inmates will sign an acknowledgement of receipt that is maintained in their file. The brochure contains information about the zero-tolerance policy and reporting information. Per the PAQ, 199 inmates received at MCTC in the previous 12 inmates were at the facility for 30 days or more and given the comprehensive PREA education.

Policy states, "On the day of arrival, inmates and CCAP probationers/parolees will receive an initial intake PREA training, Preventing Sexual Abuse & Sexual Assault - Trainer Outline (Intake). The inmate or CCAP probationer/parolee will: Watch Section 1 of the PREA: What You Need to Know video; Receive a copy of the Zero Tolerance for Sexual Abuse and Sexual Harassment; see Attachment 1E, Attachment 1H for Hearing Impaired, or Attachment 1S for Spanish Version; (Intake) and the Zero Tolerance for Sexual Abuse and Sexual Harassment attachment; Sign the Preventing Sexual Abuse and Assault Training Acknowledgement 038_F4 (Spanish 038_F4S) to document completion of the Preventing Sexual Abuse and Sexual Assault Training."

The auditor observed PREA signage in all facility locations, and notification of the agency's zero tolerance policy. Staff told the auditor that they explained the agency's zero tolerance policy regarding sexual abuse and harassment, and they explain to the newly committed inmates that they could report any instances of abuse or harassment to staff and/or use the inmate telephone system to report abuse to the listed hotline. The PREA brochure information is explained to the inmates upon arrival at the facility. The auditor was not able to observe the intake process for a new arrival due to the facility not receiving any new intakes during the onsite review. However, the intake staff did simulate a new intake.

Interviews with intake staff verified that inmates, including any transferred from another facility, are given the same PREA orientation. Further questioning revealed that inmates who were LEP would be provided the orientation using a language telephone interpreter service or a Spanish speaking staff would be utilized, if

available. For offenders that are visually impaired, a staff member would read the information to the offender. The video also has printed subtitles for the hearing impaired. Staff would assist any other disabled or impaired inmates that needed assistance, such as intellectually limited inmates. Information in multiple formats was available throughout the facility. Targeted interviews with staff indicated that the facility will make needed accommodations for identified inmates with disabilities. This was confirmed by the PREA Compliance Manager, who is also the ADA Coordinator. She keeps a list of inmates with identified disabilities and will meet with them as needed to make accommodations. The Auditor observed PREA informational posters in all offender housing areas, intake, and public areas. The posters were very prevalent in all areas of the facility.

Interviews with inmates identified as having a disability revealed the following:

- 1 hearing impaired inmate stated that he didn't need any accommodation for conversation.
- 1 vision impaired inmate stated that he did not need any accommodations, but knew he could request if needed.
- 2 inmates in a wheelchair stated that they did not need any specific accommodations. Telephones and signage were at a level that they are able to use without assistance.
- 17 inmates who were reported to have cognitive issues stated that they knew what PREA was and how to report.

Only 5 of the inmates interviewed by the auditor had arrived at the facility within the last 12 months. But they were all aware of the PREA hotline and stated that they felt comfortable speaking to staff.

The comprehensive education is accomplished through the use of the PREA education video. The video is shown during the inmate's comprehensive facility orientation. Staff is available to answer any questions the offenders may have. This is documented on the inmate orientation, as well as the comprehensive PREA Education Acknowledgement Form, both of which are kept in the inmate record to verify receipt of the training. Offender interviews indicated that they were receiving the training.

Policy states, "Within 10 days of arrival, inmates and CCAP probationers/parolees will receive a comprehensive PREA training; The inmate or CCAP probationer/parolee will: Watch the video PREA: What You Need to Know; Sign the Preventing Sexual Abuse and Assault Training Acknowledgement. Staff will upload the signed Preventing Sexual Abuse and Assault Training Acknowledgement in VACORIS as a Special Entry note to document inmate or CCAP probationer/parolee completion of the required training. Staff must upload the signed Preventing Sexual Abuse and Assault Training Acknowledgement on the same day that the inmate or CCAP probationer/parolee completes the comprehensive training. Once uploaded, staff do not need to retain the original Preventing Sexual Abuse and Assault Training Acknowledgement."

The auditor reviewed the inmate files for all 20 inmates that were interviewed.

Documentation reviewed showed that the inmates had received the comprehensive education within the 30-day timeframe as required by the standard. During the pre-

audit phase, the auditor also reviewed documentation provided by the facility of numerous Inmate PREA acknowledgment forms for education provided.

The files contained documentation of the initial inmate PREA orientation and receipt of the brochure at the time of admission, as well as the comprehensive education.

This verified what was reported in the submitted PAQ. Interviews with staff and offenders verified that offenders are receiving the initial and comprehensive PREA training as required.

However, the inmate interviews revealed that several of the inmates stated that they did not remember getting PREA information and/or watching the video. In conversation with the PREA Analyst and PREA Compliance Manager, many times when inmates are transferred to MCTC it's due to them being destabilized or in mental health crisis. When discussed with the PREA Analyst and PREA Compliance Manager, they immediately implemented a change to the education process. The auditor received documentation of this being communicated to the staff. Per email from the PCM, sent to all MCTC staff, the facility implemented the following procedure:

"OP 038.3 requires that PREA training be provided to all inmates, which includes viewing the PREA video "Let's Talk About PREA Standards," receiving a copy of the Zero Tolerance for Sexual Abuse and Sexual Harassment, and signing the Preventing Sexual Abuse and Assault Training Acknowledgement (038_F4) form.

Due to Mental Health inmates' potential inability to fully comprehend this information at the time of initial admission to MCTC, staff will also provide the PREA training again once the inmate has stabilized. This includes having the inmate sign a new Acknowledgement form at that time. This repeat training is only for Mental Health inmates.

This practice ensures compliance with policy and that all inmates can understand the PREA information provided to them."

Per the PAQ, all current offenders have received PREA training. Offender interviews indicate that the inmates have an awareness of PREA information and how to report.

As required by the standard, policy provides for education in formats accessible to all inmates. There are Spanish versions of all materials. For offenders that are visually impaired, a staff member would read the information to the offender. The information is also available in Braille, in both English and Spanish. In addition, the Purple machine is available for signing for the hard of hearing and deaf inmates. As indicated in the policy, all other special needs would be handled in coordination with the PCM or Unit Manager on a case-by-case basis.

Information in multiple formats was available throughout the facility. The Auditor observed PREA informational posters in all offender housing areas, intake, and medical. The inmate handbook is available and provided to all offenders.

Inmates receive a PREA Brochure and reporting information upon arrival to MCTC.

The PREA brochure and education is available in large print, braille, and Spanish with the capability of translating to other languages as needed.

	After a review, the Auditor determined that the facility substantially meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 030.4, 350.2 3. Review of Training Materials 4. Review of Training Documentation 5. Review Training Curriculum for Specialized Training 6. Review of Training Certificates for Investigators 7. Investigations Matrix 8. Review of investigative files 9. Interviews with PCM & Investigative Staff Findings: Agency policy is written in accordance with the standard. VADOC conducts both administrative and criminal investigations and requires all investigators receive specialized training. MCTC has three (3) staff members who has received the specialized training and there are 37 OLES agents who have been trained to conduct sexual abuse investigations in a confinement setting. The Auditor reviewed the investigations matrix, which dictates whether the allegation will be handled by agency investigators or OLES. The OLES Agents conduct all criminal investigations, in addition to all administrative investigations where criminal charges could possibly be determined and any cases involving staff. OLES Investigators are sworn law enforcement officers for the VADOC and have arresting authority. The institution Investigators and the OLES agent assigned for MCTC have completed the National Institution of Corrections Training "Conducting Sexual Abuse Investigations in a Confinement Setting," which certifies them to conduct investigations for alleged sexual abuse and harassment. The training included all mandated aspects of the standard, including Miranda and Garrity, evidence collection in a correctional setting, as well as the required evidentiary standards for administrative findings. In addition, facility investigators complete a training entitled PREA Specialized Training: Investigating Sexual Abuse in Confinement Settings. The Auditor verified the training for the investigators. The Auditor interviewed the OLES agent assigned to MCTC, as well as one of the

	institutional investigators. They were both able to articulate the aspects of the training received and appeared knowledgeable in the training, as well as conducting sexual assault investigations. The facility investigator stated that, if in the course of the investigation, it appeared that the conduct was criminal in nature and there could be criminal charges involved, the allegation would be forwarded to the OLES, who will consult with the Commonwealth Attorney regarding any potential charges. The Auditor reviewed the training records for the investigators and verified that they had received the specialized training. In addition, the investigators complete periodic refresher training for which the auditor viewed documentation. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 701.1, 102.6 3. Review of Training Materials 4. Review of Training Documentation 5. Interviews with Training Coordinator and Medical Staff Findings: VADOC Operating Procedure requires that all staff members receive PREA training in accordance with standard 115.31. Further, the policy requires that all part- and full-time mental health and medical staff members receive additional specialized training. The policy requires that the mental health and medical staff receive additional specialized training on how to detect and assess signs of sexual abuse and harassment, how to preserve physical evidence, how to respond effectively to victims of sexual abuse and harassment and to whom to report allegations or suspicions of sexual abuse or harassment. The MCTC employs a mixture of state employees and contract medical and mental health providers. Per the HSA, all medical and mental health employees are required to complete all training required by VADOC in accordance with policy. All the medical and mental health staff received the specialized training as evidenced by documentation provided by the staff and reviewed by the auditor. Medical staff complete the course “Medical Health Care for Sexual Assault Victims in a

	Confinement Setting” through the NIC. Mental health staff complete the course Behavioral Health Care for Sexual Assault Victims in a Confinement Setting” through NIC. During the on-site portion of the audit, the auditor reviewed the training logs provided by the staff and verified that all the current employees had received the required training. During targeted interviews with the medical supervisor and other medical and mental health staff, they stated they received PREA training upon orientation. In addition to the annual PREA training required by the VADOC, all medical and mental health staff complete additional training related to healthcare and PREA. Per the PAQ, there are 50 medical and mental health care practitioners who work regularly at this facility who received the training required by VADOC Operating Procedure. Targeted interviews with the training coordinator and medical supervisor verified that every employee is required to participate in PREA training in accordance with 115.31 and that training is documented. In addition, medical and mental health staff receive specialized training that covers all aspects of the standard. The auditor verified this training had been completed. The medical supervisor maintains documentation of training for all contract medical and mental health staff. The medical staff at MCTC do not perform forensic medical examinations for victims of sexual assault. Forensic medical exams are conducted at the facility by SANE nurses pursuant to an MOU, or at the local hospital emergency room. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

- PCM
- Case Managers

Observations of the Following:

- Inmate Intake Process

Findings:

According to VADOC Operating Procedure, all inmates shall be assessed upon their admission to the facility and reassessed no later than 30 days after admission to the facility. The policy is written in accordance with the standard and includes all the required elements. During the site review, the auditor was not able to observe the admission and classification process for a new inmate due to the facility not receiving any new intakes during the onsite review. However, the auditor spoke with multiple staff who explained the initial intake process. Upon arrival at the facility, inmates are informed of their right to be free from sexual abuse and harassment as well as the agency's zero-tolerance for sexual abuse and harassment and how to report instances of sexual abuse or harassment. Interviews with various staff verified that within 72 hours of admission, all inmates are screened for risk of sexual abuse victimization and the potential for predatory behavior. This is typically done by the counselor on the same day as arrival. The assessment is conducted using the electronic VaCORIS software system during the inmates' initial arrival at MCTC.

During interviews with random and targeted inmates, some remember being asked some PREA related questions during their admission process. Upon the auditor's review of the paperwork for the selected inmates, it was determined that only 5 inmates had arrived at MCTC within the previous 12 months.

Interviews revealed:

- One inmate stated he had received a risk screening upon arrival and follow-up re-assessment after 10 days.
- Two inmates stated they didn't remember the initial risk screening but did meet with a counselor after they had been there a few days.
- One inmate stated he remembered some of the initial questions but didn't remember the reassessment.
- One inmate stated he didn't remember any questions at all.

It should be noted that four of the five inmates are identified as having a significant cognitive disability. As mental health is the mission of the facility, each inmate is heavily screened and continually evaluated by a multitude of staff.

The auditor requested follow-up documentation for the inmates interviewed and verified that all the inmates had been given an initial risk screening within 72 hours of arrival at the facility.

All inmates are assessed during an intake screening and upon transfer to another facility for risk of being sexually abused by other inmates or sexually abusive toward other inmates. Intake screenings take place within 72 hours of arrival at MCTC. The facility uses an objective screening instrument that is standardized for VADOC. The

intake screening considers, at a minimum, the following criteria to assess inmates for risk of sexual victimization: (1) Whether the inmate has a mental, physical, or developmental disability; (2) The age of the inmate; (3) The physical build of the inmate; (4) Whether the inmate has previously been incarcerated; (5) Whether the inmate's criminal history is exclusively nonviolent; (6) Whether the inmate has prior convictions for sex offenses against an adult or child; (7) Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; (8) Whether the inmate has previously experienced sexual victimization; and (9) The inmate's own perception of vulnerability. The VADOC does not hold offenders solely for civil immigration purposes. The initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to MCTC, in assessing inmates for risk of being sexually abusive. According to the PAQ and VADOC Operating Procedure, the PREA screening instrument shall include the required elements. Upon review of the screening instrument, the auditor determined that the screening instrument included all the required elements in accordance with the standard.

According to the PAQ, 200 inmates entering the facility (either through intake of transfer) within the past 12 months whose length of stay in the facility was for 72 hours or more and who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility.

An inmate's risk level is reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness. The PCM stated that a reassessment is completed any time there is an incident and/or based on a referral from a staff member. Interviews with additional staff also indicated that an inmate's risk level is reassessed based upon a request, referral or incident of sexual assault.

The auditor reviewed documentation of re-assessments completed due to referrals and allegations of sexual abuse.

Inmates are asked their sexual orientation, in addition to the reviewing staff's perception. Within 30 days from the inmate's arrival at MCTC, staff reassesses all inmates' risk of victimization or abusiveness based upon any additional, relevant information received by MCTC since the intake screening. This is completed on a PREA Reassessment form and by policy is completed between 14 and 21 days after the inmate's arrival at the facility. Staff meet with the inmate and document the reassessment in the facility notes section in VACORIS. Inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked.

According to the PAQ, 199 inmates entering the facility (either through intake or transfer) within the past 12 months whose length of stay in the facility was for 30 days or more, were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake.

MCTC has implemented appropriate controls on the dissemination within MCTC of responses to questions asked pursuant to this standard to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates. Access in the VACORIS is limited. Most staff cannot see the inmate's responses on the Screening Assessment. Only authorized supervisory staff and those who perform housing, bed, work, education, and programming assignments can access the PREA Assessment. Correctional Officers can see an alert on the screen that identifies an inmate classified as HRSV or HRSA to prevent them making housing or work assignments that places the inmate at risk of victimization or abusiveness.

The Auditor interviewed staff who complete the screenings. The staff indicated that the risk screening is completed within 72 hours and the PREA risk assessment completed at the previous facility is reviewed. The screenings are completed in the electronic records system. There is limited access to the PREA risk assessment. This screening is used for housing and program decisions and referrals. The auditor reviewed this information and verified it is maintained electronically with limited access. The auditor was provided a copy of and reviewed the screening form.

Targeted interviews with staff, as well as the PREA Coordinator and PCM verified that risk assessments are performed within 72 hours of intake. The questions are asked and the answers are recorded by the staff on the risk assessment form in VACORIS. There are areas on the form that allows for the inclusion of additional details related to the question, if additional data needs to be documented.

In addition to documentation provided by the facility during the pre-audit phase, the auditor reviewed the inmate files for all inmates selected to be interviewed. The auditor reviewed their intake records and risk screenings to compare the admission date and the date of admission screening. The documentation reviewed indicated that inmates at MCTC are receiving risk screenings within 72 hours of intake.

The PCM, Counselors and PREA Analyst confirmed that 30-day reassessments are being completed on inmates. In addition to documentation provided by the facility during the pre-audit phase, the auditor also reviewed the inmate files for all inmates selected to be interviewed to determine if 30-day re-assessments had been completed. The documentation reviewed by the Auditor indicated that reassessments are being completed within the required timeframe. The counselors that complete the re-assessments are having a face-to-face meeting with the inmates and documenting this in the VACoris system.

The auditor requested follow-up documentation for the inmates interviewed and verified that all the inmates had been given a re-assessment within 30 days of arrival at the facility.

VADOC Operating Procedure stipulates that no inmate shall be disciplined for refusing to answer or disclose information in response the risk assessment questions.

According to targeted interviews with the staff, there have been no instances of inmates being disciplined for refusing to answer screening questions.

The Auditor reviewed inmate files for the inmates selected for interview and

	determined that the initial risk assessments are being completed within 72 hours as required and the 30-day reassessments are being completed on a consistent basis. After a review, the Auditor determined the facility substantially meets the requirements of the standard. Corrective action: None

115.42	Use of screening information
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 841.2, 810.1, 810.2, 425.4, 830.5, 730.2 3. Review of Screenings 4. Alert Log for HRSV, HRSA Interviews with the following: • PCM • Classification Staff • Institutional Classification Program Manager (ICPM) Observation of the following: • Site review of inmate housing units Findings: The VADOC Operating Procedure requires that screening information from the PREA risk assessment is used in making housing, bed work, education, and programming assignments. The counselor completes a risk assessment screening upon the inmate's arrival to the facility. The risk assessment is part of a standardized questionnaire in CIRIS called the Classification Assessment. Per the PCM, this tool assists in identifying inmate at heightened risk of sexual victimization (HRSV) and inmates at heightened risk of being sexually abusive (HRSA). The Classification Assessment is typically completed within a few hours of arrival at MCTC but later than 72 hours after intake or transfer. The counselor ensures information is entered in the VACORIS system so inmates identified at risk of victimization are not placed in a work, program, or education assignment with those identified as potential abusers. Counselors consider an inmate's own perceptions of their safety when making classification decisions. The screening tool includes sections for the counselor to document his/her own perceptions of the inmate. Classification staff use this information to make recommendations on housing, bed, work, program assignments and referrals with the

goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Classification records indicate facility staff make individualized considerations to ensure each inmate is housed safely in the facility. Targeted interviews with both Counselors and Classification staff verify these practices.

Per the PCM, the HRSV and HRSA alerts are visible to designated staff on the inmate's profile. Records Staff review each inmate's alerts, information, and history and makes a compatibility assessment prior to and when making housing decisions.

Targeted interviews with staff confirm these practices. HRSV and HRSA inmates will not be placed in close proximity to each other. A report can be run in CORIS to show all inmates with these alerts and their housing assignments to ensure this is in effect.

The Auditor reviewed these lists at the time of the onsite review, as well as during the pre-audit phase and found this practice to be in effect.

When an inmate is determined to be high risk for victimization or high risk for abusiveness, it is the responsibility of the staff member conducting the screening to enter the results and make appropriate referrals.

The Work Program Assignment Reviewer is responsible for approving inmate work assignments. The HSRV and HRSA alerts are checked by the Work PAR and the Institutional Program Manager (IPM) and consider this when making job and program assignments. HRSV and HRSA designated inmates will not be placed in the same work assignment or program without constant staff supervision. School assignments are also reviewed; however, accommodations can be made by switching classes so as not to keep any inmate from receiving education services. It is the responsibility of the staff to check each inmate being placed in a job that has been determined as an area where there should not be victims and abusers working together. All program and education areas are staffed when in operation. All areas/rooms in the kitchen are monitored by camera. Work supervisors would be notified of any potential conflicts.

Per memo from the Warden, "Unsupervised contact between vulnerable and potentially abusive inmates is strictly prohibited. Security staff, Treatment Officers, Treatment staff, Food Service Supervisors, and Educational Teachers provide heightened supervision and safeguard against sexual harassment and sexual abuse. The locations for work assignments, treatment programs, and education programs are equipped with technology to monitor and observe inmate behavior through the Max Pro and Rapid Camera Systems."

During the site tour, the auditor reviewed all inmate housing units.

The policy stipulates that LGBTI inmates will not be placed in a dedicated facility, unit, or wing solely based on such identification or status, unless the placement is established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting such inmates. Staff are aware of their responsibilities regarding this standard. Interviews with facility staff indicate that placement of offenders is made on a case-by-case basis.

Per memo from the Warden, Marion Correctional Treatment Center has designated the

	Institutional Program Manager (IPM) to be responsible for approving inmate work assignments and programs. Education placements are approved by DCE. Staff are aware that unsupervised contact between vulnerable, HRSV, and potentially abusive, HRSA, inmates is prohibited. In a targeted interview, the Warden stated that the staff know the inmates very well and know when something is off. He stated that they are very proactive in dealing with any issues. LGBTI offenders are not placed in dedicated housing areas. Interviews with staff confirm this practice would not occur. The auditor conducted informal discussions with inmates during the site review and no inmate mentioned being housed according to their sexual preference or identity. The auditor conducted targeted interviews with staff. The auditor was informed that inmates' housing was based upon objective finding and LGBTI inmates were not placed in dedicated units. MCTC was not under a consent decree, legal settlement, or legal judgment for the purpose of protecting lesbian, gay, bisexual, transgender or intersex inmates. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 830.5, 810.1, 810.2, 425.14 3. Sexual Abuse/Sexual Harassment Available Alternatives Assessment Form 4. Memo from Warden Interviews with the following: • PCM • Supervisors and Staff Responsible for Supervising Inmates in Restrictive Housing Findings: In accordance with agency policy, MCTC does not place inmates who are at high risk for sexual victimization in restrictive housing unless alternatives have been considered and are not available. Agency policies are written in accordance with the standard and cover all mandated stipulations. According to the PAQ, there have not been any instances where inmates at risk for sexual victimization were placed in restrictive housing for the purpose of separating them from potential abusers.

According to targeted interviews with staff who supervise inmates in restrictive housing, they are not aware of a case where an inmate was placed in restrictive housing due to being at high risk for sexual victimization.

Per the PAQ, the number of inmates at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment: 0

Information regarding designation as HRSV and HRSA is maintained in the VaCORIS system.

Staff are aware of the VADOC Policy and their responsibilities regarding this standard.

Staff will conduct an immediate assessment and review available housing alternatives prior to placing inmates in Special Management Housing. This is documented using the agency's Sexual Abuse/Sexual Harassment Available Alternatives Assessment form. Once complete, the form must be emailed to the Regional PREA/ADA Analyst. The form indicates staff must assess all available alternatives and make

a determination that no available alternative means of separation from likely abusers exists prior to placing an inmate at high risk of sexual victimization or an inmate who has alleged sexual abuse or sexual harassment in involuntary segregated housing.

Staff indicate that an inmate identified as high risk would be moved to another housing location and not placed in segregation unless it was a temporary placement to keep the inmate safe until the investigation was complete, or unless the inmate requested it. A targeted interview with the PCM also verified that no inmates during the audit period have been placed in restrictive housing involuntarily to separate them from potential abusers. Staff indicated that there was sufficient space and housing units to find a suitable place for an otherwise orderly inmate.

The agency policy states that if inmates were placed in restrictive housing for involuntary protective purposes, they would be permitted programs and privileges, work and educational programs and any restrictions would be limited. Further, the policy stipulates that such an involuntary housing assignment would not normally exceed 30 day and such a placement would be documented and include the justification for such placement and why no alternative can be arranged. According to the policy, if an inmate is confined involuntarily under these circumstances, the facility shall review the continuing need for placement.

Staff are aware of their responsibilities regarding this standard, including the need for a review every 30 day. There have been no instances that required action regarding this standard.

During the on-site portion of the audit, the auditor reviewed all the restrictive housing areas and had informal discussions with both inmates and staff. As verified by targeted interviews with staff, the auditor did not identify any inmates who were involuntarily housed in restrictive solely for protective purposes for being a high-risk victim or having made an allegation.

	After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

Hotline Information Interviews with the following: • PREA Analyst • PCM • Warden • Random Staff • Random Inmates Observation of the following: • Observation of informal interactions between staff and inmates • Observation of inmates using the telephone system • Observation of Information Posters inside the housing units, adjacent to telephone and in the booking area Findings: The VADOC Operating Procedure designates multiple mechanisms for the internal reporting of sexual abuse and harassment, retaliation by other inmates or staff for reporting, as well as mechanisms for reporting conditions that may have contributed to the alleged abuse. Policy is written in accordance with the standard. The auditor reviewed the inmate handbook and found that inmates are informed that they may report instances of abuse or harassment by reporting to staff members, both verbally and in writing, as well as by using the inmate telephone system to make a report to the PREA hotline. There are multiple internal ways for offenders to privately report PREA related incidents, including verbally to any staff member, a written note

submitted to staff, anonymous reports within or external to DOC, and third-party reports. This information is received by offenders at intake in both written and verbal form, contained in the inmate handbook and on informational posters in all offender housing areas, intake, and various other locations throughout the facility. Operational practice at MCTC is consistent with the VADOC Operating Procedure. Informational posters are prevalent and prominent in all areas of the facility.

Inmates can also use the Inmate Grievance Procedure to report an allegation of sexual abuse or harassment. Inmates are not required to resolve an incident of sexual abuse or sexual harassment with staff or submit the grievance to the staff member who is the subject of their sexual abuse or sexual harassment allegation. Grievances regarding sexual abuse or sexual harassment will not be referred to the staff member who is the subject of the grievance and an inmate will not be charged for filing a grievance regarding sexual abuse or sexual harassment unless it is determined that it was filed in bad faith.

During random staff interviews, staff stated that inmates could make a PREA report to any staff member, write a note, have a friend or family member report for them, or call the hotline. During the site review, the auditor observed reporting information adjacent to all inmate telephones. Random offender interviews revealed that the inmates are aware of the reporting methods available to them. All stated that they could report through the #55 hotline, in person to any staff, or in writing.

The VADOC does not hold inmates solely for civil immigration purposes.

Staff interviews revealed that they are aware of their responsibilities regarding reporting, and would accept and immediately act on any information received, regardless of the source. All staff that were interviewed acknowledged their duty to report any PREA related information. Information on how to report on behalf of an inmate is listed on the agency website. Staff indicated they would accept and act on third-party reports, including from another inmate. Verbal reports are required to be promptly documented on an Internal Incident Report.

VADOC Operating Procedure provides a requirement that inmates have the option of reporting incidents of sexual abuse to a public or private entity that is not part of the agency. Offenders can report outside the MCTC, by phone, using the established hotline. This information is in the inmate handbook, posted by the phones and on the brochure the inmates receive at intake. During the site review, the auditor observed PREA informational posters and placards adjacent to the inmate telephones with the Hotline information where reports can be taken and referred for investigation. This reporting option prompts the inmate to either leave a message, or they have the option to speak with an advocate from Action Alliance. Most all offenders interviewed were aware of this as a potential reporting method, indicating the offenders are receiving this information.

The auditor reviewed the allegations for the previous 12 months and found that there were 3 allegations reported through a variety of methods, including verbally, anonymously, and hotline. This indicates that offenders are aware of the various

reporting methods.

The Auditor verified the availability of the hotline by making a test call to the external hotline. The report was immediately received for the external call and logged. The auditor received documentation of this report the same day from the PREA Analyst.

During a targeted interview with a victim advocate from Action Alliance, she verified the availability hotline and their ability to take reports. She stated all the advocates are PREA trained.

Policy and the inmate handbook stipulate that 3rd party reports of sexual abuse or harassment will be accepted verbally or in writing. Random inmate and staff interviews revealed that the staff and inmates are aware that third party reports will be accepted and treated just like any other reports, with an investigation started immediately.

Targeted interviews with multiple staff verified that there are numerous ways to make PREA complaints by both staff and inmates, including the use of the inmate phone system, anonymous letters, as well as third party reporting by family and friends. The auditor reviewed investigative files for the allegations of sexual misconduct within the last year. There were a variety of methods used by the inmates for reporting, including anonymously. Regardless of the method of reporting, each allegation was investigated in accordance with policy.

Policy requires that all staff accept reports of sexual abuse or harassment both verbally and in writing and that those reports shall be documented in writing by staff and responded to immediately. During targeted interviews with staff, the staff indicated that if an inmate reported an allegation of sexual abuse or harassment, they would notify their supervisor of such an allegation and immediately intervene by separating the victim and alleged perpetrator. Each staff member stated that they would act without delay. They would accept a verbal complaint and would be required to make a written report of the incident.

Staff may privately report sexual abuse or harassment of inmates either verbally or in writing to their supervisors, investigative staff, or Warden directly. Staff can also report sexual abuse or harassment through the established hotline. Staff members are informed of this provision during PREA training. Staff interviews revealed that they are aware they can go directly to facility administration, including the PCM to report sexual abuse and harassment of inmates. Most all staff that were randomly interviewed answered that they would report any such incident to their supervisor.

Staff interviews revealed they are also generally aware of the availability of the hotline for their use. The PREA Coordinator's office distributes a monthly staff newsletter informing them of PREA related information. The Auditor reviewed the newsletters distributed during the audit year.

After a review, the Auditor determined that the facility meets the requirements of the standard

Staff Interviews Findings: Agency policy is written in accordance with the standard. Policy allows an inmate to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. Policy allows an inmate to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. There are provisions in the policy to allow for third-parties, including fellow inmates to assist inmates in filing grievances related to sexual abuse and assault. This procedure also discusses how to file emergency grievances related to sexual abuse. If an inmate files an emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an expedited response is required. The grievance procedures are outlined in the inmate handbook, with a section specific to the grievance procedure for sexual abuse and harassment. Random inmate interviews indicated they are aware of the grievance process and that they can utilize the process to report a PREA allegation. None of the inmates interviewed by the Auditor had filed a grievance alleging an imminent risk of sexual abuse or an allegation of sexual abuse. Grievance boxes were observed accessible to the inmate population and staff stated the receptacles are checked daily. A targeted interview with the facility investigator revealed that all allegations, including ones submitted through the grievance process are immediately referred for investigation. This was confirmed by the grievance coordinator. Per the PAQ, the facility had no grievances filed that alleged sexual abuse during the previous 12 months. Per the PAQ, in the past 12 months, the number of grievances alleging sexual abuse that reached final decision within 90 days after being filed: 0 Per the PAQ, in the past 12 months, the number of grievances alleging sexual abuse that involved extensions because final decision was not reached within 90 days: 0 Agency policy establishes procedures for filing an emergency grievance alleging that an inmate is subject to a substantial risk of imminent sexual abuse and requires a response within 48 hours. 	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3 3. Inmate Handbook and Website 4. Hotline Information 5. Sexual Assault brochure 6. MOU with Action Alliance Interviews with the following: a. PCM b. Random Inmates c. Random and Targeted Staff d. Mental Health and Medical Staff Observations of the Following: a. PREA informational Posters throughout the facility and public areas Findings: VADOC Operating Procedure is written in accordance with the standard. The facility provides inmates with access to local, state, or national victim advocacy or rape crisis organizations, including toll-free hotline numbers. The policy requires reasonable communications between inmates and those organizations and agencies, in as confidential manner as possible. The MCTC informs inmates of the extent to which these will be monitored prior to giving them access. Staff interviews indicate they are aware of their obligations under this standard. The auditor reviewed the MCTC handbook, which included information regarding the

availability of outside confidential support services for victims of sexual abuse and harassment. During the site review, the auditor viewed posted information that notifies inmates of the availability of these services, in both Spanish and English. The inmates are informed that, "Calls to the outside advocate are confidential and DOC does not have access to the recording." Services through Action Alliance can be accessed through the free hotline, or by writing a letter. Inmates have the option to report through the hotline using Option #1 or speak with an advocate for supportive services using Option #2.

Policy requires that inmates and staff are allowed to report sexual abuse or harassment confidentially and requires that medical and mental health personnel inform inmates of their limits of confidentiality. Targeted interviews with medical and mental health reveal they are aware of their obligations to inform the inmates of the limits of confidentiality. The auditor reviewed documentation that verified this is being relayed to the inmates.

Inmates are informed of the services available at intake. MCTC provides all inmates information regarding victim advocacy services upon intake (same day) and during facility orientation. The information is provided in written form and provided to the inmate verbally. Inmates are also made aware of the 24/7 crisis line that is available to them as part of the victim advocate service. Inmate interviews indicated that some of the inmates are aware of the outside services that are available to them.

Inmate interviews revealed:

- 18 inmates stated that they were aware of emotional support services and/or had seen the posted information, but were not aware of specifics
- 2 inmates stated that they were not aware of any emotional support services available

The information is listed in the brochure that is provided to the inmates, as well as the inmate handbook. During the site review, the auditor observed mail drop boxes in various locations. An interview with mailroom staff revealed that outgoing mail is not opened or searched (without documented cause) and there are no restrictions on inmates sending mail to external reporting entities, outside emotional support services, and/or legal mail.

The MCTC has an MOU with the Virginia Sexual and Domestic Violence Action Alliance (VSDVAA) which stipulates they agree to provide a Hotline with contact information, Social Services and Victim advocates, which also includes participation in forensic exams, investigations and may also

include follow-up visits or communications. The Auditor was provided a copy of the MOU and verified the agreement for services. The auditor verified the availability of services with Action Alliance staff, as well as facility psychology staff. The Auditor also placed a test call to the emotional support hotline from the facility to verify this was a viable method for the inmates to utilize.

There have been no inmates detained solely for civil or immigration purposes.

After a review, the Auditor determined the facility meets the requirements of the standard.

Visitation posters 7. Staff Interviews 8. Inmate Interviews Findings: The VADOC Operating Procedure is written in accordance with the standards, stipulating that all third-party reports will be accepted and investigated. The MCTC publicly provides a method for the receipt of third-party reports of sexual abuse or harassment through the VADOC website. The Auditor reviewed the DOC website. The website has information on its PREA page that contains information about PREA and their responsibilities for criminal and administrative investigations. It also contains contact and reporting information should any one wish to report an incident of sexual abuse or harassment on behalf of an inmate. The third-party reporting form is in Spanish and English. In addition, there is an email established for taking third-party reports. The auditor also observed posters in the visitation and lobby areas listing a phone number to call for third-party reporting. MCTC's Inmate Handbook, which is provided during the intake process includes a section with PREA information that informs inmates that they can report sexual abuse and sexual harassment by calling the confidential reporting hotline and anyone on their behalf at the facility can report. They are also provided the agency's Zero Tolerance pamphlet upon arrival. The brochure informs inmates they may ask a family member or friend to report an allegation for them. Staff interviews reveal that they are aware of their obligation to accept and immediately act on any third-party reports received. Staff, including supervisors, indicate they will accept a third-party report from a family member, friend, or another inmate. They would document the report and inform their supervisor, and the report would be handled the same as any other allegation or report and investigated thoroughly. This was also verified by the facility investigator and the OLES Investigator.

	Offenders are provided this information at intake and offender interviews indicate that most are aware that family or friends or other offenders can call or write and report an incident of sexual abuse on their behalf. Inmate interviews revealed that 16 inmates stated that a third party can make a report on their behalf, 2 inmates stated “probably” someone else could make a third-party report, and 2 inmates stated that they were not sure if a third party could make a report. The auditor tested the 3rd party reporting process by sending an email to the address listed on the website. The auditor received a prompt reply to the test message. The auditor reviewed the investigative files for allegations of sexual abuse and harassment in the past 12 months and found that the investigations were initiated promptly and in accordance with VADOC Operating Procedure, regardless of the source of the information. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.1, 038.3, 3.22, 730.2, 801.6 3. Review of investigative files Interviews with the following: • Investigative staff • Warden • Random Staff • Medical and Mental Health Staff Findings: VADOC Operating Procedure is written in accordance with the standard and requires all staff, contractors, and volunteers to immediately report any knowledge, suspicion or information related to sexual abuse or harassment to a supervisor. Agency policy requires all staff to report immediately any knowledge, suspicion or information related to retaliation, staff neglect or a violation of duties which may have contributed to sexual abuse or sexual harassment. Staff are required to report information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the VADOC.

During the site review, random staff members interviewed were asked if they were required by policy to report any instances or suspicions of sexual abuse or harassment. All the staff members responded unequivocally that they were required to report any such instances immediately. The auditor also asked the same question of contracted staff, and they stated that they would report any instance of sexual abuse or harassment immediately to security staff. Interviews with staff indicate they are very clear regarding their duties and responsibilities about reporting PREA related information, including anonymous and third-party reports. During random staff interviews, all the staff members stated that they were required by policy to report any instance of sexual abuse or harassment or retaliation for making reports. They were also asked if that included alleged behavior by staff or contractors or volunteers. All staff members who were interviewed said that they were obligated to report any such allegations or suspicions, no matter who it involved. Staff articulated their understanding that they are required to report any information immediately and document such in a written report. An interview with a facility volunteer confirms their understanding of their obligation to immediately report any PREA related information.

Policy requires confidentiality of all information of sexual abuse or harassment beyond what is required to be shared as a part of the reporting, treatment, or investigation. During the random staff interviews, staff were asked about their requirement for maintaining confidentiality. The staff understand the need to keep the information limited to those that need to know to preserve the integrity of the investigation. All the interviewed staff stated that details related to either inmate allegations or staff allegations should remain confidential and they would only discuss details with supervisors and investigators. Targeted interviews with the PREA Analyst, Investigators and PCM verified that all investigative files are maintained with limited access.

Policy requires that all medical and mental health personnel inform inmates of the mandatory reporting requirements and limits of confidentiality to victims of sexual abuse. Interviews with medical and mental health staff indicate they are aware of their mandatory reporting requirements and comply with the mandate to disclose the limits of their confidentiality. Medical and mental health staff are aware of their responsibilities to report information, knowledge, or suspicions of sexual abuse, sexual harassment, retaliation, staff neglect or violations of responsibilities which may have contributed to an incident. The auditor viewed documentation that shows that medical and mental health staff discuss limits of confidentiality with the offenders. Mental health staff stated that inmates are informed about limits of confidentiality and informed consent and acknowledge this at the initiation of mental health services, typically multiple times, as well as sign an acknowledgement of this which is retained in their file.

Targeted interviews with the PCM, as well as random staff interviews verified that all allegations of sexual abuse or harassment received from a third party are referred for investigation and immediately acted upon.

The VADOC policy requires all allegations of sexual abuse and sexual harassment,

	including third-party and anonymous reports be immediately reported to the facility designated investigator who will notify the PREA/ADA Analyst of the allegation. All allegations of sexual abuse and harassment at MCTC are reported to the on-duty supervisor, who initiates an investigation. The reporting officer and supervisor create a report, and this report is forwarded to the investigator for review and further action. In addition, the PCM is notified through the chain of command. The Auditor conducted a formal interview with one of the facility investigators, who indicated that all allegations are immediately reported and investigated. There were 3 allegations of sexual harassment or assault for the previous 12 months. The Auditor reviewed investigative files and determined that each allegation was promptly reported and investigated as required by the standard. The Auditor reviewed agency training curriculum for staff, volunteers and contractors, which includes reporting of sexual abuse and sexual harassment allegations. All staff are required to read the agency's policies and sign an acknowledgement on an annual basis. The auditor verified through training records that all staff, contractors, and volunteers had received training and read the policies how to report sexual abuse and sexual harassment information. Staff interviews verified that all MCTC staff had received training and were well aware of their obligations to immediately report all allegations of sexual assault and harassment. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: Evidence Reviewed: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 830.6, 730.2 Interviews with the following: • PCM • Warden • Random Staff • Random Inmates Findings: VADOC Operating Procedure is written in compliance with the standard and requires

that whenever there is a report that there is an incident of sexual abuse or harassment, the victim should be immediately protected. Policy requires a staff member, volunteer or contractor to immediately notify their supervisor or the Officer-in-Charge when learning an offender is subject to a substantial risk of imminent sexual abuse. The Officer-in-Charge is required to take immediate action to ensure the protection of the offender. The agency's policy defines "Keep Separate" as, "A classification action whereby an offender is not to be housed at a specific location, or with access to specific DOC staff, or offender; 'Keep Separate' determination is not required but may be based on:...The offender is subject to a substantial risk of sexual abuse from a specific, identified offender."

Random interviews with staff, both security and non-security, indicate they are clear about their duty to act immediately if an offender is at risk of imminent sexual abuse. Staff were able to articulate the steps they would take and act immediately to protect the inmate. Staff indicated they would immediately remove the inmate from the situation, keep them separate and safe, and find an alternate place for them to stay or be housed pending an investigation or further action. Staff stated they would ensure the inmate was kept safe, away from the potential threat and in their sight at all times. An initial investigation would be completed by the supervisor. Classification staff and the Unit Managers would also be notified. Targeted interviews with the Warden and the PCM confirmed that it is the policy of MCTC to respond without delay when inmates are potentially at risk for sexual abuse or any other types of serious risk.

Policy dictates that when the facility learns that an inmate is subject to a substantial risk of imminent sexual abuse, it takes immediate action to protect the inmate. The Warden, PCM and security supervisors interviewed by the Auditor were knowledgeable of their responsibility for the protection of inmates identified as being at imminent risk of sexual abuse. Options include relocating the inmate to a different housing unit at the facility or transferring the inmate to another facility. These actions would be determined on a case-by-case basis and with the best interest of the inmate and their safety in mind.

Mental Health staff shall immediately consult with the Warden or designee and recommend housing interventions or other immediate action to protect an offender when it is determined the offender is subject to a substantial risk of imminent sexual abuse, or is considered at risk for additional sexual victimization.

MCTC reports in the PAQ that there have been no determinations made that an offender was at substantial risk of imminent sexual abuse. The PCM confirmed that MCTC did not have any inmates determined by the facility to be subject to a substantial risk of imminent sexual abuse requiring immediate action during this audit period. All inmates that report an allegation are immediately separated from the alleged abuser and kept in staff sight at all times until the alleged abuser is secured. If the report is made to staff other than an officer, security staff would be notified immediately. The staff member that the inmate reported the allegation to would remain with the inmate and ensure their safety until security staff responded.

	The Auditor randomly reviewed files and talked with staff, both formally and informally, and found no evidence that an inmate was determined to be at imminent risk of sexual abuse. There have been no incidents that required action with regard to this standard. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 030.4 3. Unit Head Notification Interviews with the following: • PCM • Warden Findings: The VADOC's policy is written in accordance with the standard and requires that if the Warden or his/her designee receives an allegation regarding an incident of sexual abuse that occurred at another facility, he/she must make notification as soon as possible, but no later than 72 hours after receiving the allegation. The agency requires the Warden document the notification. A facility head or agency office that receives a notification is responsible for ensuring the allegation is investigated in accordance with the Prison Rape Elimination Act standards and agency policy. During this review period, the facility reported receiving two notifications from an inmate alleging sexual abuse while incarcerated at another facility that needed to be reported. Per the PAQ: in the past 12 months, the number of allegations the facility received that an inmate was abused while confined at another facility: 2 According to targeted interviews with the Warden and PCM, if they receive such a notice, they would immediately report the allegation to the Warden or Administrator of the other facility and document such a notice. The Warden stated that upon receiving an allegation that an inmate was assaulted at another facility, he would call the Warden/Administrator at the facility where the alleged assault occurred, followed

	by an email to the Warden or Administrator to complete and document the notification process. The Warden stated he has up to 72 hours of receiving the information to make the notification, but typically would make the notification as soon as he receives it. Both the Warden and PCM stated they would make a notification regardless if the allegation occurred at a VADOC facility. The Warden and PCM confirmed their understanding of their affirmative requirement to report allegations in accordance with the standard. The auditor reviewed documentation of the notifications of the two allegations referenced above. These notifications are in email form and were reported Warden to Warden within 72 hours. MCTC requires that if the Warden or designee receives notice that a previously incarcerated inmate makes an allegation of sexual abuse that occurred at the MCTC, it would be investigated in accordance with the standards. The MCTC reported there have been no reports from another facility that an inmate claimed he/she was sexually abused while housed at MCTC within this audit cycle. In the event such allegation is received, the Warden shall notify the facility investigator, who will ensure that an investigation is immediately initiated, and notify the Regional PREA Analyst. Interviews with the Warden and PCM confirm the staff are aware of their obligation to fully investigate allegations received from other facilities. Further, interviews with the staff revealed that staff is keenly aware of their obligations with regard to reporting, and there is a universal understanding and commitment to immediately report any allegations of sexual abuse or harassment, which increases the probability that abuse will be detected, reported and investigated. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

Findings:

The VADOC Operating Procedure is written in accordance with the standard and indicates actions staff should take in the event of learning an inmate has been sexually assaulted. Policy requires that when an inmate reports an incident of sexual abuse, the responding staff member: Separate the alleged victim and alleged abuser to ensure the victim's safety; Notify the Shift Commander and preserve and protect any evidence; If the abuse allegedly occurred within a time period that would allow the collection of evidence, request the victim not take any actions that would destroy any evidence; and take action to prevent the alleged abuser from destroying evidence. The requirements of the first security staff member to respond to the report of sexual abuse are outlined in the MCTC Sexual Assault Response Checklist.

The MCTC Coordinated Response Plan requires security first responders to do the following:

Notify the Shift Commander immediately; Notify ADO, Institutional Investigator, PREA Coordinator as soon as the alleged victim and abuser have been separated; Notify Medical staff immediately;

Preserve any crime scene; Request the alleged victim not to take any actions that might destroy physical evidence (washing, brushing teeth, changing clothes, urinating, defecating, drinking, eating);

Ensure alleged abuser - if this person can be identified - does not take any action to destroy physical evidence (washing, brushing teeth, changing clothes, urinating, defecating, drinking, eating); Escort the victim to the Medical Department as soon as possible to provide examination, treatment and evaluation; and Create Internal Incident Report on VACORIS.

The Auditor conducted interviews with staff first responders. Security first responders were asked to explain the steps they would take following an alleged sexual abuse reported to them. All staff interviewed said that they would notify their supervisor after separating the inmates and wait for further instructions. The staff were able to appropriately describe their response procedures and the steps they would take, including separating the alleged perpetrator and victim and securing the scene and any potential evidence. The Auditor was informed the scene would be preserved and remain so until the assigned Investigator arrived to process the scene. A targeted interview with the Investigator indicated that once the initial steps were done and the scene was secure, OLES would be notified, depending on the nature of the investigation.

The MCTC Coordinated Response plan requires security supervisor first responders to: Notify the Shift Commander immediately; Notify ADO, Institutional Investigator, PREA Coordinator as soon as the alleged victim and abuser have been separated; Notify Medical staff immediately;

Preserve any crime scene; Request the alleged victim not to take any actions that might destroy physical evidence (washing, brushing teeth, changing clothes, urinating, defecating, drinking, eating);

Ensure alleged abuser - if this person can be identified - does not take any action to destroy physical evidence (washing, brushing teeth, changing clothes, urinating,

defecating, drinking, eating); Escort the victim to the Medical Department as soon as possible to provide examination, treatment and evaluation;
Create Internal Incident Report on VACORIS; In the event that the alleged abuser is identified as a staff person, have that staff member removed from the area and not returned to that area until the investigation is complete.

The Auditor conducted interviews with supervisory staff. The Auditor asked what the supervisor response and role would be following a report of sexual assault. The supervisor stated that they would ensure the alleged victim and alleged abuser were removed from the area and kept separately in the facility. The crime scene would be secured and a staff member posted to ensure no one entered the scene. The alleged victim would be taken to medical for treatment of any emergent needs. If needed, the SANE nurse would be contacted to respond to the facility. The PCM would also be informed. The supervisor stated the Investigator(s) would be the only ones allowed in the crime scene to process the evidence.

Policy requires that if the first responder is not a security staff member, the staff immediately notify a security staff member. There were no instances during the audit period where a non-security staff member acted as a first responder to an allegation of sexual abuse. The Auditor conducted formal interviews with non-security personnel. Staff were asked what actions they would take following an alleged sexual abuse reported to them. Staff indicated they would ensure the victim remains with them and immediately inform an officer or supervisor. They would also request the victim not take actions to destroy evidence.

In the past 12 months, the number of allegations that an inmate was sexually abused:
2

Of these allegations of sexual abuse in the past 12 months, the number of times the first security staff member to respond to the report separated the alleged victim and abuser: 2

In the past 12 months, the number of allegations where staff were notified within a time period that still allowed for the collection of physical evidence: 0

There were 2 allegations of sexual abuse during this audit period. The auditor reviewed the investigative reports for the allegations. In all cases, if applicable, the alleged victim was immediately separated from the alleged perpetrator. A review of investigative reports indicated that all appropriate steps were taken as dictated by MCTC's Response Plan and Agency policy. An investigation was initiated promptly.

The auditor interviewed 2 inmates who had previously reported sexual abuse. The interviews revealed the following: Both inmates stated that staff came right away, and both inmates stated that they were separated from the other inmate(s) involved. The nature of the allegations did not necessitate evidence collection or a forensic exam.

Medical personnel interviewed stated they would first ensure a victim's emergency medical needs are met. They stated they would request the victim not to use the restroom, shower, or take any other actions which could destroy evidence. Medical

	staff informed the auditor they would immediately notify a supervisor if they were the first person to be notified of an alleged sexual abuse. A forensic exam would be completed if needed. In accordance with the MOU with Ballard Health a SANE Nurse will be called and the exam will be completed at MCTC. The Agency uses a standardized Sexual Assault Response Checklist to document staff actions in response to a sexual abuse incident. Training records indicate that all staff, contractors and volunteers have been trained to appropriately respond to incidents of sexual abuse. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3 3. Sexual Assault Response Checklist 4. MCTC PREA Response Plan 2026 5. Interviews with PCM, Investigator, Medical Staff and Warden Findings: The VADOC policy requires each agency develop a written plan to coordinate actions taken in response to an incident of sexual abuse, among staff first responders, medical and mental health practitioners, investigators, and facility leadership. A Sexual Assault Response Checklist has been created which supplements facility Coordinated Response Plans and outlines staff duties in response to a sexual assault incident. The Auditor reviewed the plans for MCTC. The facility has a coordinated facility plan to address actions in response to an incident of sexual abuse among facility staff, including first responders, supervisory staff, medical, investigative staff and administrators. Interviews with multiple staff indicate that they understand their duties in responding to allegations of sexual assault and are knowledgeable in their role and the response actions they should take. The MCTC has a PREA Response Plan listing actions to be taken by staff for each type of sexual assault allegation to ensure that all aspects of the response are covered and nothing is missed. Many of the facility staff involved in responding to incidents of sexual abuse are also a part of the

	incident review team. The MCTC plan was updated on March 3, 2026 and is signed by both the PREA Compliance Manager and the Warden. The agency has created a Sexual Assault Response Checklist that documents staff actions following an incident of sexual abuse. The Sexual Assault Response Checklist requires the staff to include the date and time each action listed was taken. The auditor reviewed investigative files of sexual assault, which indicate staff are appropriately responding to allegations of sexual assault, including separating and safeguarding the inmate victim. The auditor interviewed two offenders incarcerated at the time of the audit who filed an allegation of sexual abuse. They indicated that staff responded right away and separated them from the alleged aggressor. The auditor interviewed the Warden, 2 designated investigators, medical staff, mental health staff, security supervisors and the PCM, who all described the facility's coordinated response in the case of an allegation of sexual abuse or harassment. The response begins with the allegation and first responder action to protect the victim, secure the crime scene and protect any potential evidence. The initial investigation begins with the first responders and supervisors and then the facility investigators. Depending on the nature of the allegation, the investigation will either begin as administrative or criminal. In the case of a criminal investigation, the victim is treated in accordance with policy and provided a forensic exam and ancillary services, as well as offered advocacy services. The remainder of the investigation is dictated by the nature of the allegation. Regardless, all investigations are completed and a finding is assigned. It may be referred for criminal prosecution or handled administratively and could require medical and mental health services and monitoring for retaliation and notice to the victim about the outcome of the investigation. All staff at MCTC that the auditor spoke with appear to be well-versed in their role and responsibilities in responding to allegations of sexual assault. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination:

	1. MCTC Completed PAQ 2. Memo Interviews with the following: • PREA Coordinator Findings: The VADOC has not entered into any agreement that limits the agency's ability to remove alleged staff sexual abusers from contact with inmates pending the outcome of an investigation or of a determination of whether and to what extent discipline is warranted. The Code of Virginia prohibits entering into a collective bargaining agreement. Virginia Code 40.1-57.2 stipulates, "No state, county, municipal, or like governmental officer, agent or governing body is vested with or possesses any authority to recognize any labor union or other employee association as a bargaining agent of any public officers or employees, or to collectively bargain or enter into any collective bargaining contract with any such union or association or its agents with respect to any matter relating to them or their employment or service." The Virginia Department of Corrections does not have any collective bargaining power therefore this standard is non-applicable. Per memo and interview with the PREA Coordinator, the auditor verified that there is not a collective bargaining agreement in place. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.67 Agency protection against retaliation	
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 135.1, 135.2 Interviews with the following: • PCM • Warden Findings:

The VADOC's policy is written in accordance with the standard and states retaliation by or against any party, staff or offender, involved in a complaint or report of sexual abuse or sexual harassment shall be strictly prohibited. Retaliation in and of itself, shall be grounds for disciplinary action and will be investigated. Policy requires staff and inmates who report allegations of sexual abuse or harassment are protected from retaliation for making such reports. Policy and memo from the facility indicates that the PCM is designated as the staff who will be responsible for monitoring retaliation for a minimum period of 90 days. Monitoring will also include periodic status checks. Policy states monitoring shall occur beyond ninety (90) days if the initial monitoring indicates a continuing need and monitoring shall cease if the investigation determines that the allegation is unfounded.

VADOC policy requires retaliation monitoring of any other individual who cooperates with an investigation and expresses a fear of retaliation and requires the Facility Unit Head take appropriate measures to protect the individual against retaliation.

Employees who express fear of retaliation for reporting or cooperating with investigations into sexual abuse or sexual harassment are referred to the Employee Assistance Program for emotional support services.

The Auditor conducted a formal interview with the staff member responsible for monitoring retaliation. When monitoring retaliation, she reviews disciplinary charges, housing or programming changes, incident reports, and any other actions related to the inmate, including documents maintained in the inmate's file and his electronic record. She stated that anytime anything changes she will look at those actions. The person responsible for monitoring retaliation will make referrals to medical and mental health as needed. The monitoring will also include periodic status checks and notations made on the Retaliation Monitoring Form. There is a standardized form, one used for inmates and one used for staff.

The PCM stated the monitoring period would be a minimum of 90 days, and longer if necessary. She stated that she will meet with the inmate as necessary. In the event the inmate cannot be protected at the facility, the staff can and will recommend a transfer.

In the case of an offender being retaliated on by staff, the administration would discuss staff assignments with the supervisor to ensure the staff member is not placed in an area where the inmate is housed. The inmate can also be transferred, if need be, at the request of staff.

Administrative staff have the authority to move inmates around the facility or to request transfers to other facilities or take other protective measures to assure inmates are not retaliated against. Inmates would not be held in Special Management unless requested by the inmate.

In addition, the Warden has the authority and would intervene in any way necessary to protect employees from retaliation if they reported incidents of sexual abuse or harassment.

If any other individual who cooperates with an investigation expresses a fear of

	retaliation, the PCM will ensure that appropriate measures are taken to protect that individual against retaliation. The auditor reviewed the retaliation monitoring forms for the three allegations during the audit year provided by the facility and found them to be in compliance with the standard. The Auditor saw examples of various proactive measures taken by staff to ensure there would not be any retaliation or repercussions for inmates that have made allegations of sexual abuse. In addition, staff interviews confirmed their knowledge of the requirements for protection from retaliation for both inmates and staff members. The agency has prepared forms that include checklists that would assure and verify compliance with the necessary elements of the standard. The auditor interviewed two inmates who had previously reported sexual abuse. Both inmates stated that the staff had periodically checked on them to ensure they had no issues as a result of making an allegation of sexual assault. The facility reported there were no incidents of retaliation in the last 12 months. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.68	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 830.5, 425.4 3. Review of all Investigative Files from the past 12 Months Interviews with the following: • PCM • Staff who supervise inmates in RH Observation of the following: • Observation of Inmates in restrictive housing Findings: The VADOC's policy is written in accordance with the standard and requires the use of segregated housing be subjected to the requirements of PREA standard 115.43. Agency policy prohibits the placement of inmates who allege to have suffered sexual abuse in involuntary segregated housing unless an assessment of all available

alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. Policy requires that it has been determined by the qualified mental health professional in consultation with the Regional PREA Analyst and Shift Commander that no available alternatives of separation exist. Policy requires the Shift Commander to complete a Sexual Abuse/Sexual Harassment Available Alternatives Assessment form prior to placing a HRSV in special housing for protection. The agency's policy allows the Shift Commander to place the HRSV offender in special housing for protection for no more than 2 hours before completing the Sexual Abuse/Sexual Harassment Available Alternatives Assessment if the form cannot be completed immediately.

During interviews with staff, they stated they would not place an inmate in segregation for reporting sexual abuse or assault. Staff indicated they would not ordinarily place a sexual assault victim in segregation unless the inmate had requested it. Staff explained that other alternatives are explored and segregation is utilized as a last resort. A Sexual Abuse/Sexual Harassment Available Alternatives Assessment form is completed to ensure all available alternatives are considered. The form includes the following considerations: Can offender be reassigned to another housing unit; Was another alternative to involuntary segregated housing used, list option; Can offender be transferred to another facility; If allegation was made and staff is alleged perpetrator, was the staff member placed on administrative leave or placed on another post; Was the offender or alleged victim (if allegation) reassigned to Special Housing/Restrictive Housing Unit for Protective Custody; and Is access to programs, privileges, education, or work opportunities restricted, list which ones and why?

The assessment form requires the signature of the Facility Unit Head and stipulates the form be emailed to the Regional PREA Analyst. The form also requires a written justification for all "no" answers listed.

The Auditor was informed of and observed several areas in the facility to place sexual abuse victims to ensure they are protected from abusers without having to place the victim in segregated housing.

The auditor reviewed all the MCTC restrictive housing areas and through informal discussions with supervising staff, no one indicated that inmates were assigned to restrictive housing because of their sexual vulnerability. Staff indicated that if an inmate that made an allegation were to be held in restrictive housing, it would be very briefly until other housing was arranged or the initial investigation was complete.

The facility has had no incidents that have required restrictive protective custody. Interviews with the supervisory staff as well as the PCM, IPM and Unit Administrators confirmed their knowledge of their requirements to appropriately adhere to the elements of standard 115.43, after a victim's allegation of abuse. If an inmate who alleged to have suffered sexual abuse was held in involuntary segregated housing, MCTC staff would ensure documentation of both a statement of the basis for facility's

	concern for the inmate's safety, and the reason or reasons why alternative means of separation could not be arranged. The inmate's status would be reviewed every 30 days to determine whether there is a continuing need for separation from the general population. In addition, during targeted interviews with Classification and Unit Management staff, they both verified that there have been no instances of inmates being placed in restrictive housing because of the sexual victimization or vulnerability. There were no records or documentation to review regarding this standard because there were no instances of the use of restrictive housing to protect and inmate who was alleged to have suffered sexual abuse. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.71	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 030.4, 038.3 3. Review of Investigative files 4. Interviews with Staff 5. Documentation of Investigator Training 6. Certificates of Completion for Facility Investigators 7. Training Curricula for Investigative Training specific to Corrections Findings: The VADOC Operating Procedure is written in accordance with the standard and states that all investigations into allegations of sexual abuse and sexual harassment will be done promptly, thoroughly, and objectively for all allegations, including third party and anonymous reports. Policy requires that the agency conduct both administrative and criminal investigations of sexual abuse and harassment. The policy requires that investigations are responded to promptly. The MCTC investigates all allegations of sexual abuse and sexual harassment, including third-party and anonymous reports. The policy requires administrative investigations to include efforts to determine whether staff actions or failure to act contributed to an act of sexual abuse. Investigative reports are required to include a description of physical evidence, testimonial evidence, the reason behind credibility assessments, and investigative facts and findings. Credibility assessments are conducted as part of the

investigative process with the institutional investigators and the OLES agents, and the assessments are conducted on all involved parties in the investigation.

VADOC conducts both administrative and criminal investigations in accordance with agency policy. The agency has an Investigative Matrix that outlines when the facility and Office of Law Enforcement Services investigate allegations. The matrix specifies the facility Investigator conducts initial investigations of PREA, fraternization and harassment allegations. The matrix dictates investigations started at the facility that are confirmed PREA allegations will be referred to the OLES. The Office of Law Enforcement Services is required to conduct investigations of confirmed PREA allegations, confirmed fraternization and sexual assault.

If the MCTC Investigator determines that there may be a criminal element to the allegation of sexual abuse, they will forward the case to the State OLES investigator, who is a sworn law enforcement officer with arrest powers. The OLES investigator will continue the investigation. There are currently 37 OLES agents in the state. The OLES Investigator assigned to MCTC covers the western district of the state.

The auditor reviewed investigative reports for allegations of sexual abuse and sexual harassment during the past 12 months. All reports contained the required elements as dictated by the standard. As evidenced by the investigative reports, all allegations are investigated promptly, thoroughly, and objectively. The report format and checklists are standardized throughout the DOC which provides for consistency in the investigative process. Review and oversight for all allegations is completed through the Regional PREA Analyst and the PREA Coordinator's office.

If at any time during the investigation, it appears the charges are criminal in nature, the investigation will be referred to the OLES. During the audit year, there were no cases referred to OLES for investigation.

Per the PAQ, the number of substantiated allegations of conduct that appear to be criminal that were referred for prosecution since August 20, 2012, or since the last PREA audit, whichever is later: 0

The facility is required to maintain written investigative reports for as long as the alleged abuser is incarcerated or employed by the MCTC, plus an additional 5 years in accordance with DOC records retention schedules and policy. Policy prohibits the termination of an investigation if an inmate is released or a staff member is terminated or terminates employment.

If the OLES investigates an allegation of sexual abuse, the facility investigator serves as a liaison and would keep facility administrators informed of the progress of the investigation. The facility investigator and OLES agent typically work together and share information. The auditor reviewed documentation of allegations of sexual abuse referred to the OLES for investigation during the review period. The investigative reports indicate collaboration between MCTC Investigators and the OLES agent.

At the time of the on-site audit, MCTC employs and provided training records for 3 facility staff members who have received specialized training to conduct sexual abuse

investigations in confinement facilities. The auditor was provided training curricula and training certificates of designated investigators. The auditor reviewed and verified that each of the facility investigators had proof of receiving the specialized training required by the standard. Each investigator had received specialized training to conduct sexual abuse investigations in confinement settings. Targeted interviews with one facility investigator and the assigned OLES agent verified they are available to respond immediately, if necessary.

The Auditor conducted a formal interview with one of the facility's designated PREA Investigators, as well as the assigned OLES agent. The Auditor asked the Investigators to describe the process when investigating an allegation of sexual misconduct. They stated they interview the victim, alleged perpetrator, inmate witnesses, and staff witnesses, if applicable. They will respond to and review the scene, and preserve any evidence, if necessary. In accordance with the standard, they will gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data. They review criminal histories on all inmates involved, disciplinary history, incident reports, and classification actions. The investigator will review prior reports and complaints of sexual abuse involving the suspected perpetrator. The investigator reviews video footage if applicable, telephone recordings, staff logs, and any other relevant items which could be considered evidence to support the determination. They will keep the PCM and facility administration advised of the progress of investigation. If at any point during the investigation the facility investigator determines there could be potential criminal charges involved, the investigation would be reviewed and forwarded to the OLES. The OLES Investigator will contact the Commonwealth Attorney for referral and consultation as warranted. The Investigators stated they begin the investigation immediately after receiving an allegation.

All investigative files are maintained electronically in the VACORIS system with limited access. Investigative files are maintained for a minimum of five years after the abuser has been released or a staff abuser is no longer employed. In accordance with VDOC policy, an offender who alleges sexual abuse shall not be required to submit to a polygraph examination or other truth-telling device as a condition to proceed with the sexual abuse investigation. This was verified by the OLES agent as well as two inmates that had reported sexual abuse.

If an allegation is reported anonymously, the Investigators stated the investigation would be handled the same as any other investigation. One of the investigative files reviewed by the auditor was reported anonymously.

The Investigator stated that they would continue the investigation even if an inmate is released or a staff member terminates employment during the investigation. The OLES investigator stated that she will complete each investigation all the way thru, regardless if any of the involved parties leave employment or are released or transferred.

The MCTC has had 3 incidents that required investigation during the review period – two allegations of sexual abuse and one allegation of sexual harassment.

	The auditor reviewed investigative reports for allegations of sexual misconduct during the past 12 months. A review of the investigative files indicate that the investigators are conducting the investigations in accordance with the standard. The reports show evidence that the investigator is gathering evidence, interviewing witnesses, victims, perpetrators, and conducting the investigation promptly. Reports indicate that investigators look at each allegation on its own merits and assess the credibility of an alleged victim, suspect, or witness on an individual basis and not based on that individual's status as inmate or staff. The investigations appear to be conducted promptly, thoroughly, and objectively. Targeted interviews with a facility investigator and the OLES Agent assigned to MCTC indicate that the investigators appear knowledgeable in conducting sexual abuse and sexual harassment investigations in accordance with the elements of the standard. The MCTC facility investigators and OLES investigator have received specialized training in conducting sexual abuse investigations in confinement settings. All information related to PREA investigations is forwarded to the Regional PREA/ADA Analyst for data compiling. Electronic data is securely maintained on servers accessible to the investigators and the PREA/ADA Analysts. Each has a unique username and password. The investigative files are maintained in a secure, locked area with limited access. Per the PAQ, there have been no allegations referred for criminal investigation during the previous 12 months. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.72	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 135.2, 038.3 3. Memo 4. Review of Investigative files for the past 12 months Interviews with the following: • PCM • Investigative Staff Findings:

	The VADOC's policy is written in compliance with the requirements of the standard and imposes no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. It was confirmed through multiple staff interviews that MCTC imposes no standard higher than preponderance of the evidence in making determinations. This is discussed in the investigator training, which all designated investigators have completed. A formal interview with one of the designated Investigators and the OLES agent for MCTC confirmed that the staff responsible for administrative adjudication of investigations is aware of the requirements of the evidentiary standard. The facility investigator was able to articulate what preponderance meant and how he arrives at the basis for his determinations. The auditor reviewed the investigative files and the basis for the determinations. A review of the investigative files indicates that the investigations are being conducted in accordance with the standard. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.73	Reporting to inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 030.4 3. Review of investigative files and notification to inmate Interviews with the following: • PCM • Investigator Findings: The VADOC Operating Procedure is written in accordance with the standard and requires an inmate be notified when a sexual abuse allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation. When a staff member has committed sexual abuse against an offender, unless the determination is unfounded, the PREA Compliance Manager or investigator shall inform the offender whenever: the allegation has been determined to be unfounded; the allegation has been determined to be unsubstantiated; the staff member is on longer posted within the offender's unit; the staff member is no longer employed at

the facility; the DOC learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the DOC learns that the staff member has been convicted on a charge related to sexual abuse within the facility.

When an offender has alleged sexual abuse by another offender, the PREA Compliance Manager or investigator is required to inform the offender whenever: the allegation has been determined to be unfounded; the allegation has been determined to be unsubstantiated; the DOC learns that the alleged abuser has been indicted on a charge related to sexual abuse within the facility; or the DOC learns that the alleged abuser has been convicted on a charge related to sexual abuse within the facility.

Policy dictates that the inmate will be notified by the Investigator or the PCM. The auditor conducted targeted interviews with the PCM and Investigator. The agency is responsible for both administrative and criminal investigations.

Per the PAQ, the number of criminal and/or administrative investigations of alleged inmate sexual abuse that were completed by the agency/facility in the past 12 months: 2

Per the PAQ, of the alleged sexual abuse investigations that were completed in the past 12 months, the number of inmates who were notified, verbally or in writing, of the results of the investigation: 2

Per the PAQ, the number of investigations of alleged inmate sexual abuse in the facility that were completed by an outside agency in the past 12 months: 0

Per the PAQ, in the past 12 months, the number of notifications to inmates that were provided pursuant to this standard: 2

Per the PAQ, of those notifications made in the past 12 months, the number that were documented: 2

The PCM and Investigator indicated that inmates are informed of the results of an investigation at the conclusion of the investigation. DOC policy states that:

B. Reporting to Inmates and CCAP Probationers/Parolees

1. Following an investigation into an inmate's or CCAP probationer's/parolee's allegation that they suffered sexual abuse or sexual harassment in a DOC facility, the PREA Compliance Manager or

Investigator must inform the inmate or CCAP probationer/parolee whether the allegation was determined to be substantiated, unsubstantiated, or unfounded;

a. Following the allegation that a staff member committed the sexual abuse, the PREA Compliance

Manager or Investigator must subsequently inform the inmate or CCAP probationer/parolee when:

(§115.73[c], §115.273[c])

i. The allegation is determined to be unfounded.

ii. The allegation is determined to be unsubstantiated.

iii. The staff member is no longer posted in the inmate's or CCAP probationer's/parolee's unit.

- iv. The staff member is no longer employed at the facility.
- iv. The DOC learns the staff member was indicted on a charge related to sexual abuse within the facility.
- v. The DOC learns the staff member was convicted on a charge related to sexual abuse within the facility.
- b. Following the allegation that another inmate or CCAP probationer/parolee committed the sexual abuse, the PREA Compliance Manager or Investigator must subsequently inform the alleged victim when: (§115.73[d], §115.273[d])
 - i. The allegation has been determined to be unfounded.
 - ii. The allegation has been determined to be unsubstantiated.
 - iii. The DOC learns the alleged abuser was indicted on a charge related to sexual abuse within the facility.
 - iv. The DOC learns that the alleged abuser was convicted on a charge related to sexual abuse within the facility.
- c. The PREA Compliance Manager or Investigator must document all such notifications and attempted notifications and will send the notifications to the inmate or CCAP probationer/parolee in the same manner as legal correspondence; see Operating Procedure 803.1, Inmate and Probationer/Parolee Correspondence for legal mail requirements. (§115.73[e], §115.273[e])
- d. Any obligation to report under this standard terminates if the inmate or CCAP probationer/parolee is released from a DOC facility. (§115.73[f], §115.273[f])

Notification is provided to the inmate through a memo from the Investigator. Per policy, the PCM or Investigator must document notifications and will send the notifications to the inmate in the same manner as legal correspondence. The notification is processed as legal mail and documented on the Incoming Legal Correspondence Log. The inmate is given a copy of the memo by the mailroom staff distributing the Legal Mail. The inmate will be asked to sign and date the mail log as verification that they did receive the notification.

The auditor interviewed 2 offenders who made an allegation of sexual abuse within the previous 12 months. Both inmates stated that they had been notified regarding the outcome of their allegation.

The agency is responsible for conducting administrative and criminal investigations. Criminal investigations are conducted by OLES in conjunction with the facility administrative investigations. The OLES communicates with the facility and send any relevant updates relating to criminal charges/convictions. This was confirmed by the OLES agent. She states she will communicate with the facility investigator regarding notifying the inmates for any investigation that she completes.

The Auditor reviewed the investigative files for reported allegations of sexual assault during the review period, including the notification letter and mail log verifying receipt. The MCTC made notification to the inmates at the conclusion of the investigation as required. During the review of the investigative files, the auditor also found that notification is being made to inmates that made allegations of sexual

	harassment as well. Interviews with the facility investigator and PCM confirmed their knowledge of their affirmative requirement to report investigative finding to inmates in custody. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.76	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 135.2, 135.1 3. Investigative files 4. Interviews with Staff Findings: The VADOC PREA and disciplinary policies were reviewed and are in compliance with the requirements of the standard. Staff is subject to disciplinary sanctions up to and including termination for violating the sexual abuse or sexual harassment policies. Policy requires that staff found responsible for sexual abuse of an inmate shall be terminated from employment. Employees who are found to have violated agency policy related to sexual abuse and harassment, but not actually engaging in sexual abuse shall be disciplined in a manner commensurate with the nature and circumstances or the acts, as well as the previous disciplinary history of the staff and comparable to offenses by other staff with similar disciplinary histories. In accordance with policy, the VADOC notifies law enforcement agencies and relevant licensing bodies when criminal violations of sexual abuse or sexual harassment are committed by staff. Any terminations or resignations by staff who would have been terminated if not for their resignation are reported, unless that activity was clearly not criminal. The agency's policy requires staff who are terminated or resign in lieu of termination for violating sexual abuse or sexual harassment policies are notified of the agency's responsibility to report such violations to licensing bodies and/or law enforcement agencies. During a targeted interview with the Warden, he stated that the agency and the facility has a zero-tolerance policy on any allegations of sexual misconduct, including if staff members are involved. The presumptive discipline for any substantiated violations of this policy is termination.

Any allegations of sexual assault or harassment involving staff or potential criminal charges would be investigated by the Office of Law Enforcement Services. The Auditor conducted a formal interview with the Office of Law Enforcement Services Investigator for MCTC. Each OLES Agent has the legal authority to place criminal charges against a staff member who engages in sexual abuse or a criminal act of sexual harassment. The OLES investigator informed the Auditor she notifies the Commonwealth's Attorney following such an incident if the act was clearly criminal. She stated that the Commonwealth Attorney will review and look at each case on its own merits.

Interviews with facility staff and administrators verified that staff are aware of the disciplinary sanctions for violating the agency's sexual abuse policies and consider a violation of the PREA policy to be of sufficient seriousness to warrant termination and prosecution in accordance with the law. In both formal and informal staff interviews, the staff were aware that the agency has a zero-tolerance policy regarding sexual abuse and any such incidents would be investigated and reported to the appropriate agency for prosecution, if necessary.

The Auditor interviewed the Warden regarding the facility's staff disciplinary policy. He indicated that if a staff member is terminated for violating the facility's sexual assault and harassment policy, and if the conduct is criminal in nature, it would be referred by OLES for criminal prosecution. The OLES agent verified this practice. If an employee under investigation resigns before the investigation is complete, or resigns in lieu of termination, that does not terminate the investigation or the possibility of prosecution if the conduct is criminal in nature. The facility would still refer the case for prosecution when a staff member terminates employment that would have otherwise been terminated for committing a criminal act of sexual abuse or sexual harassment. The facility reports violations of sexual abuse to the local law enforcement agency and relevant licensing bodies. The Warden has the authority to discipline staff, including suspension and termination.

Per the PAQ, in the past 12 months, the number of staff from the facility who have violated agency sexual abuse or sexual harassment policies: 0

Per the PAQ, in the past 12 months, the number of those staff from the facility who have been terminated (or resigned prior to termination) for violating agency sexual abuse or sexual harassment policies: 0

Per the PAQ, in the past 12 months, the number of staff from the facility who have been disciplined, short of termination, for violation of agency sexual abuse or sexual harassment policies (other than actually engaging in sexual abuse): 0

Per the PAQ, in the past 12 months, the number of staff from the facility that have been reported to law enforcement or licensing boards following their termination (or resignation prior to termination) for violating agency sexual abuse or sexual harassment policies: 0

The auditor confirmed the information reported in the PAQ through interviews with staff and a review of the investigative files.

	After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.77	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 027.1, 135.2 3. Memo 4. Interviews with Staff Findings: The VADOC PREA and disciplinary policies were reviewed and are in compliance with the requirements of the standard. Policy stipulates that contractors and volunteers who violate the sexual abuse or sexual harassment policies are prohibited from having contact with inmates and will have their security clearance for the DOC and MCTC revoked. The disciplinary sanctions for volunteers or contractors are like those of the disciplinary sanctions for staff members. Policy states if there is an investigation and the individual is determined to have committed acts of sexual abuse or sexual harassment, the case will be referred for criminal prosecution and to any relevant licensing bodies. Additionally, the Agency will take measures to prevent contact from the volunteer or contractor with any offender within the VADOC system. MCTC reported that in the past 12 months, there have been no instances where volunteers or contractors have engaged in sexual abuse or harassment. Staff verified during targeted interviews that there had been no instances of sexual abuse or harassment by contractors or volunteers in the past 12 months. The auditor reviewed the investigative files for the previous 12 months, which corroborated this information. Targeted interviews with contract staff members verified that they consider a violation of the PREA policy to be of sufficient seriousness to warrant termination from the facility. The contract staff were aware that the agency has a zero-tolerance policy regarding sexual abuse and any such incidents would be investigated and reported to the appropriate agency for prosecution, if necessary. Volunteers and contractor staff are made aware of the VADOC sexual abuse and sexual harassment policies during their initial training and orientation prior to providing services in the facility. Each volunteer and contractor attend training and

	signs an acknowledgement of same, which is retained in their file. The facility provides each volunteer and contractor "A Guide to Maintaining Appropriate Boundaries with Offenders Brochure" during their orientation. All volunteers and contractors are required to review the agency's policies and procedures related to sexual abuse and sexual harassment and sign the acknowledgment after doing so. The Auditor verified through training records that volunteers and contractors at MCTC had received training and reviewed the policies. The Auditor interviewed facility administration regarding the disciplinary policy regarding contract staff and volunteers. Facility administration indicated that contractors and volunteers who violate the sexual abuse or sexual harassment policies will have their security clearance revoked immediately. Contract staff would most likely be terminated by the contract employer. If the conduct is criminal in nature, it will be referred to OLES investigators, and the Commonwealth Attorney's office for possible prosecution, as well as reported to any relevant licensing bodies. The auditor confirmed the information reported in the PAQ through interviews with staff and a review of the investigative files. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.78	Disciplinary sanctions for inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 861.1, 830.3, 820.1 3. Inmate Handbook 4. Review of Investigative Files 5. Review of Classification Records 6. Interviews with Staff Findings: The VADOC Operating Procedure directs that inmates are not permitted to engage in non-coercive sexual contact and may be disciplined for such behavior. Policy dictates that staff is prohibited from disciplining an inmate who makes a report of sexual abuse in good faith and based on a reasonable belief the incident occurred, even if the investigation does not establish sufficient evidence to substantiate the allegation. If it is determined that the inmate did commit sexual abuse in the correctional

setting, they will be subject to disciplinary sanctions commensurate with the level of the infraction, and other disciplinary sanctions of others with the same or similar infractions.

MCTC prohibits sexual activity between inmates. Inmates found to have participated in sexual activity are internally disciplined for such activity. If the sexual activity between inmates is found to be consensual, staff will not consider the sexual activity as an act of sexual abuse. Instances of sexual activity between inmates, if reported to be consensual, are still investigated and each case is taken at face value. The Auditor interviewed the Hearings Officer and asked about disciplinary hearings for allegations of sexual assault and harassment, as well as for sexual activity between inmates. The hearings officer stated that Intel officers will investigate, write a report, and refer any disciplinary charges. The officer indicated that he will look at the report, evidence, and witness statements to make a determination.

VADOC Operating Procedure states inmates are subject to formal disciplinary action following an administrative finding that they engaged in inmate-on-inmate sexual abuse. According to the submitted PAQ, there have been no substantiated instances of inmate-on-inmate sexual abuse. Any substantiated reports of inmate-on-inmate abuse would result in a disciplinary charge for the perpetrator.

Per the PAQ, in the past 12 months, the number of administrative findings of inmate-on-inmate sexual abuse that have occurred at the facility: 0

Per the PAQ, in the past 12 months, the number of criminal findings of guilt for inmate-on-inmate sexual abuse that have occurred at the facility: 0

The auditor confirmed the information reported in the PAQ through interviews with staff and a review of the investigative files.

According to policy, disciplinary action for inmates is proportional to the abuse committed as well as the history of sanctions for similar offenses by other inmates with similar histories.

Agency policy requires that staff consider whether an inmate's mental health contributed to their behavior before determining their disciplinary sanctions. The hearings officer stated that they ensure that the inmates understand the process and depending on the mental health code of the inmates involved, psychology has to approve the charges to move forward. Given the mission of MCTC and the large number of inmates with significant mental health issues, this is given significant consideration.

There are psychology staff on site to provide mental health services to the inmates at MCTC. Psychology staff provide an array of services, including programming, supportive counseling and crisis intervention. Mental health staff are on call for emergent needs and can transfer inmates if they need more in-depth mental health treatment. Any decision to offer counseling or therapy to offenders and the initiation of any such counseling or therapy for individuals who have committed sexual offenses would be done at the discretion of the mental health staff in conjunction with

	a treatment plan for the offender. Psychology staff stated that they would provide services to inmate perpetrators, if requested. Agency policy stipulates that inmates will not be disciplined for sexual contact with staff unless it is substantiated that the staff did not consent. There were no substantiated instances of inmate on staff sexual assault during the audit period. Agency policy prohibits disciplining inmates who make allegations in good faith with a reasonable belief that prohibited conduct occurred. Interviews with staff and inmates confirm that MCTC is adhering to the provisions of the standard. Prior to placing disciplinary charges on an inmate for filing an allegation made in bad faith, the facility is required to submit the information to the Regional PREA/ADA Analyst for review and approval. There have been no such disciplinary charges during the review period. The Auditor reviewed investigative files, classification files, inmate records and interviewed staff, including a targeted interview with the PCM. There is no evidence to suggest an inmate received a disciplinary charge for making an allegation of sexual abuse or sexual harassment in good faith. Interviews with staff and inmates confirmed their knowledge of the policy regarding inmates engaging in non-coerced sexual activity. Furthermore, the staff and inmates were aware that the agency has an internal disciplinary process for inmates who engage in sexually abusive behavior against other inmates and knew that they could be disciplined for sexual abuse. The staff stated that there is a thorough investigation into all disciplinary reports. The auditor reviewed examples of disciplinary charges for inmates that engaged in non-coercive sexual activity in accordance with agency policy. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

- c. Medical Staff

7. Interviews with Inmates

Findings:

The VADOC's policy is consistent with the requirements of the standards. The policy requires staff to offer a follow-up meeting with medical or mental health staff within 14 days of arrival at the facility for an inmate that reports sexual victimization, either in an institutional setting or in the community. It is the policy of the VADOC to identify, monitor and counsel inmates who are at risk of sexual victimization, as well as those who have a history of sexually assaultive behavior.

During the Classification assessment, the intake counselor asks each inmate if they have a history of sexual victimization, which is notated on the assessment. A determination is made regarding the inmate's HRSV and HRSA status. Mental health is notified if the inmate is designated as either HRSV or HRSA. Per an interview with the psychology provider, every new intake or transfer to MCTC is seen by psychology staff within 24 hours of arrival. They will ask about their sexual abuse history during the assessment. An interview with the intake counselor confirms these practices and verified that screening information is only accessible by limited staff who can inform housing, treatment, and education decisions.

A random review of inmate files validated that the screenings were being conducted in accordance with the standards and the policy. In addition, there were multiple documented instances provided by the facility where inmates who were identified as needing follow up care, were offered the follow-up care within the 14-day period prescribed by the standards. An interview with medical staff and mental health staff confirms that if an inmate answers yes on the screening question that they have experienced previous victimization, it automatically triggers an alert for a referral and the inmate is offered a follow-up meeting, which is scheduled at that time if the inmate states that he wants the meeting. The mental health provider indicated that the 14-day follow-ups entailed a face-to-face meeting with the inmate. Staff also stated that the follow-up meetings typically occur sooner than 14 days. Per VADOC policy, psychology staff will notify inmates identified as high-risk of sexual victimization (HRSV) and high-risk of sexual abusiveness (HRSA) of the availability for a follow-up meeting with a mental health practitioner and inform the inmate of available, relevant treatment and programming.

Interviews with medical and mental health staff also confirmed that referrals are generated if a screening indicates that an inmate has perpetrated sexual abuse, whether it occurred in an institutional setting or in the community. The Auditor asked mental health staff if sexual abusers are offered a follow-up meeting with mental health. The mental health practitioner stated that sexual abusers are offered a follow up but are not required to accept.

The auditor interviewed three inmates identified as having reported previous sexual victimization during the targeted inmate interviews. All 3 inmates recall being offered

mental health services upon disclosing previous victimization during the risk screening. They stated they were seen within a few days. Due to the specialized population at MCTC and the mental health mission, all inmates are seen by mental health staff after arrival. The inmate population at MCTC faces cognitive, mental, and emotional challenges and may exhibit behaviors that make them more vulnerable to the predatory actions of others. This requires MCTC to maintain a higher staff to inmate ratio than other facilities. The staff are very attentive to those inmates identified as either high risk of victimization or high risk of abusiveness.

The Auditor conducted a formal interview with psychology staff. The staff member indicated that inmates identified as needing follow-up care are scheduled to be seen within 14 days. This is a voluntary meeting and not mandated that the inmate accept the meeting. Psychology staff will identify any additional needs and services and develop a treatment plan if the inmate wants services. VADOC policy stipulates information related to sexual victimization and abusiveness that occurred in an institutional setting be strictly limited to medical, mental health, and other staff as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law. When asked who this information would be shared with, the staff stated that this information would be kept confidential and only be shared with those who needed to know.

Mental health staff confirm that follow-up meetings and services are offered to both inmates at risk of victimization, as well as inmates who have a history of sexually assaultive behavior. Any inmate that is identified as having previously perpetrating sexual abuse will have an assessment by mental health staff. Further, the psychologist stated that if she gets a referral from staff to see an inmate, she will see them as soon as possible, but typically within 24 hours. The auditor viewed examples of referrals and follow-up meetings for inmates identified as both HRSV and HRSA.

HRSA and HRSV codes are documented in the mental health section in the VACORIS electronic system and each staff member with access has an individual login and password. An interview with the staff confirmed that information related to sexual victimization and sexual abusiveness is kept secure and confidential with limited staff access. This information is limited access and only used to make housing, bed, work, education, and other program assignments, in accordance with agency policy.

VADOC Operating Procedure states that medical and mental health personnel will obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18. Interviews with medical and mental health staff confirm that they would gain informed consent before reporting information about prior sexual victimization that did not occur in an institutional setting. There have been no reported instances for medical or mental health practitioners to have a need to report such victimization during the audit period.

Marion Correctional Treatment Center Correctional Center does not house youthful offenders.

115.82	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 720.7, 730.2 3. Shift Supervisor Checklist 4. Interviews with Staff, including the following: a. PCM b. Investigator c. Medical Staff d. Random Security Staff 5. Interviews with Inmates Findings: The VADOC Operating Procedure is written in compliance with the standard and states that all inmate victims of sexual abuse will receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The security staff first responders are responsible for immediately notifying the appropriate medical and mental health practitioners in case of an incident. Interviews with medical staff confirm that victims of sexual abuse would receive timely, unimpeded access to these services. Medical staff provide coverage 24 hours per day, seven days a week. The staff are aware of their responsibilities regarding protection of the victim and evidence in the case of a report of sexual assault. In addition, medical and mental health staff are available 24 hours per day in the case of emergency and/or for crisis intervention services. This was confirmed by the PCM and medical staff. Psychology staff will initiate contact with the victim and provide evaluation and treatment as appropriate. The Psychology Staff will complete a Sexual Assault Assessment and recommend subsequent services as indicated. For services that are outside the scope of their experience, the victim can be treated at the local emergency department. Forensic exams are conducted by qualified forensic nurse examiners at the facility through an MOU with Ballard Health. An advocate from Action Alliance is available at the request of the victim to provide emotional support services, and accompany the inmate to the hospital, if requested. The auditor verified the availability of both services. The Auditor reviewed the MOU with the Virginia Sexual and Domestic Violence Action Alliance, which stipulates the

VSDVAA agrees to maintain a Statewide Hotline that provides confidential crisis intervention and emotional support services related to sexual abuse or assault victims. They also agree to provide an advocate if requested by the victim, during a forensic examination and investigation. The Auditor conducted a telephone interview with a victim advocate from Action Alliance. The victim advocate verified and explained the crisis intervention services offered to inmate victims of sexual abuse.

Medical and mental health staff maintain secondary materials (e.g., form, log) documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis. The Sexual Assault Checklist, Sexual Assault Assessment forms are maintained in the investigative file.

Interviews with facility staff indicate their awareness of the provisions of the standard and their responsibilities if there is a report of sexual abuse.

Interviews with security staff indicated that they are aware of their responsibilities with respect to protecting an inmate that reports sexual assault and ensuring that they get immediate medical treatment. Each staff member informed the Auditor that they would take immediate steps to ensure victims are protected and receive emergency medical care in the event needed. Security staff would immediately notify their supervisor and medical personnel following an incident of sexual abuse. Security supervisors ensure the safety of the offender following a sexual abuse incident by separating them from the alleged abuser and ensure they get immediate medical treatment.

VADOC Operating Procedure states that all inmate victims of sexual abuse will be offered information and access to emergency contraception and sexually transmitted infections prophylaxis in accordance with professionally accepted standards of care, where medically appropriate. Medical staff was interviewed and confirmed the fact that they knew that they had an affirmative responsibility to provide care without regard to the ability of the victim pay for services or identify the alleged abuser, and the requirement to make a provision for emergency contraception and STD prophylaxis, if required. They confirmed that victims of sexual abuse would be offered these services either at the emergency room or as a follow-up once returned to the facility.

Interviews with two inmates that reported sexual abuse revealed the following: Neither inmate reported allegations that necessitated a forensic exam. Both inmates stated that they were offered to see medical and mental health. Both inmates were also reminded about the availability of advocacy services.

The auditor reviewed the investigative reports and associated documentation for allegations during the audit period and found that the facility acted in accordance with the standard and VADOC policy.

Agency policy states that forensic examinations will be performed by Sexual Assault

	Forensic Examiners (SAFE's) or Sexual Assault Nurse Examiners (SANE) without a financial cost to the victim. Interviews with medical staff confirm that victims of sexual abuse would not be charged for services received due to a sexual abuse incident. The VADOC has permanently rescinded healthcare co-payments as of April 1, 2023. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.83	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 730.2, 720.7, 720.4 3. Prison Rape Elimination Act (PREA) Psychology Associate Follow-up 4. Interviews with Staff, including the following: a. Mental Health Staff b. Medical Staff 5. Interviews with Inmates 6. Memo re medical co-payments Findings: The VADOC Operating Procedure is written in compliance with the standard and states that the facility will offer medical and mental health evaluation and treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. The evaluation and treatment of such victims will include follow up services, treatment plans, and referrals for continued care following their transfer or release. Interviews with medical and mental health staff confirm that these services would be available to inmates who have been victims of sexual abuse, and these services would be consistent with the community level of care. Interviews with medical and mental health staff reveal that they feel the care they provide the inmates is much better than the community level of care due to availability and access of services. Agency policy requires QMHPs to attempt to conduct a mental health evaluation of all known offender-on-offender abusers within 60 days of learning of such abuse history, and offer treatment when deemed appropriate. An interview with mental health staff revealed that services are offered to inmates that are at high risk of sexual victimization (HRSV), as well as inmates that are at high risk of sexual abusiveness

(HRSA). Mental health staff attempt to provide evaluations and treatments for offender-on-offender sexual abusers. However, these services are not mandatory and offenders are not required to participate in sessions with the mental health practitioner. The auditor reviewed examples of inmates who are known abusers being referred to and seen by mental health.

Inmate victims of sexual abuse while in the facility will be offered tests for sexually transmitted infections as medically appropriate. Interviews with medical staff confirm that inmate victims of sexual abuse would be offered tests for sexually transmitted infections and emergency prophylaxis. Female victims of sexual abusive vaginal penetration while incarcerated would be offered pregnancy tests.

MCTC only holds male offenders.

Interviews with two inmates that reported sexual abuse revealed the following: Neither inmate reported allegations that necessitated a forensic exam. Both inmates stated that they were offered to see medical and mental health. Both inmates were also reminded about the availability of advocacy services.

VADOC Operating Procedure states that all treatment services for sexual abuse will be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Interviews with medical staff confirm that these services would be provided to the inmate at no cost. There are no costs for evaluations and treatments related to sexual victimization. The VADOC has permanently rescinded healthcare co-payments as of April 1, 2023.

If no qualified medical or mental health practitioners are on duty at the time a report of recent sexual violence is made, first responders will take preliminary steps to protect the victim and shall immediately notify the shift supervisor. The auditor reviewed investigative reports and associated documentation for allegations in the audit period and found that the facility acted in accordance with the standard and VADOC policy.

The auditor reviewed documentation provided by the facility of ongoing services and mental health care offered for inmates identified as victims. In addition, the facility provided documentation of inmate-on-inmate abusers being offered mental health evaluation and follow-up. In a targeted interview with the mental health staff, she stated that inmates that both high-risk victims and high-risk abusers would be offered services. If an inmate is identified as a high-risk victim or a high-risk abuser, a referral is made to mental health for follow-up. If the inmate accepts services, mental health will meet with the inmate and complete a "Prison Rape Elimination Act (PREA) Psychology Associate Follow-up" form to determine the level of services offered to the inmate. If the inmate is designate as high-risk, mental health staff will monitor them at a minimum of annually.

Staff interviews confirmed the presence of policies and procedures consistent with the standard and confirmed the medical and mental health staffs' knowledge of the policy and standard. Staff are well-versed in their responsibilities with respect to PREA

	related incidents. Interviews with inmates confirm they are generally aware of the availability of services should they request or require them. Action Alliance is available for crisis counseling and/or advocacy services and inmates can request to speak with psychology staff. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

115.86	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3, 038.1 3. Incident Reviews 4. Interviews with Staff Findings: The VADOC has a policy that governs the review of all substantiated or unsubstantiated allegations of sexual abuse. Agency policy states that a sexual abuse incident review will be conducted within 14 days after the conclusion of every sexual abuse investigation unless the allegation has been determined to be unfounded. VADOC policy stipulates that: the review for sexual abuse and sexual harassment will be conducted on a PREA Report of Incident Review. The facility PREA Compliance Manager will forward the PREA Report of Incident Review to the Regional PREA Analyst for review and approval, prior to submission to the Regional Office. The review team will consist of upper-level management officials, supervisors, investigators, and medical/mental health personnel. Per the PAQ, in the past 12 months, the number of criminal and/or administrative investigations of alleged sexual abuse completed at the facility, excluding only "unfounded" incidents: 0 Per the PAQ, in the past 12 months, the number of criminal and/or administrative investigations of alleged sexual abuse completed at the facility that were followed by a sexual abuse incident review within 30 days, excluding only "unfounded" incidents: 0 The auditor reviewed the incident review template for the agency. The template

considers all elements as required by the standard. There were two allegations of sexual abuse during the audit period. Both resulted in a finding of unfounded, therefore no incident review was required.

In accordance with the standard, VADOC Operating Procedure states that the review team will consider a need to change policy or practice to better prevent, detect, or respond to sexual abuse; if the incident or allegation was motivated by race, ethnicity, gender identity, lesbian, gay, bisexual, transgender, or intersex identification, status, perceived status, gang affiliation or was motivated or otherwise caused by other group dynamics at the facility; examine the area in the facility where the alleged incident occurred to assess whether physical barriers in the area may permit or contribute to the abuse; the adequacy of staffing levels in that area during different shifts; and whether monitoring technology should be deployed or augmented to supplement supervision by staff.

In addition, VADOC policy requires that the incident review team: provide a brief summary of the incident; clarify the original Incident Report or Internal Incident Report, as needed; provide an analysis of the causal factors and contributing circumstances; determine what can be done to limit the occurrence or reduce the severity of future incidents; consider whether there was a proper application of current procedure, practice, staffing and/or training; or whether there is a need to revise the current procedure, practice, staffing, and/or training; and develop an Action Plan to limit or mitigate similar future incidents.

An interview with two members of the incident review team, as well as the Warden confirms if there was an incident that required a review, all these factors would be considered. The staff stated that the review team follows a formatted document to ensure all elements of the standard are considered. The staff stated the incident review team discusses recommendations for improvement and include those recommendations on the final report, which is approved by the Warden. An interview with the PCM confirms that a report of the findings, including recommendations for improvement, would be completed, and submitted for inclusion in the file. The Warden will review the recommendations. The PCM also stated any recommendations would be implemented, or the reasons for not doing so would be documented. Both members of the incident review team interviewed stated that the Warden would take into consideration any recommendations and generally will implement any recommendations by the review committee.

The MCTC has appointed a team that conducts incident reviews at the conclusion of any sexual assault investigations as stipulated by the standard. This was confirmed by formal interview of the Warden and PCM. A written report of the findings is prepared and maintained by the PCM. She indicated that the reviews take place within 14 days of the conclusion of the investigation as required by DOC policy, which exceeds the 30-day requirement of the standard.

Sexual Abuse Incident Reviews are conducted in a standardized method department wide. Team members meet to discuss the various components required by the standard and then this is documented on the PREA Report of Incident Review form. A

	copy is forwarded to the Regional PREA Analyst and Regional Office for review. This oversight and standardization are completed for all sexual abuse related abuse allegations. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Auditor Discussion Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ 2. VADOC Operating Procedure 038.3 3. Annual Report 2025 4. BJS Survey 2024 5. Interviews with Staff Findings: The VADOC Operating Procedure is consistent with the requirements of the standard and states that the agency will collect annually accurate, uniform data for every allegation of sexual abuse necessary to answer all questions from the most recent version of the Survey of Sexual Violence conducted by the Department of Justice and complete an annual report based upon said data. The Auditor reviewed the Annual Reports available on the facility website, including aggregated sexual abuse data for calendar years 2022 – 2025. The data collected includes: Inmate-on-inmate nonconsensual sexual acts; Inmate-on-inmate abusive sexual acts; Inmate-on-inmate sexual harassment; Staff-on-inmate sexual victimization, and Staff sexual misconduct. The annual report is very comprehensive and lists all corrective actions taken. The report is approved by the Director and the PREA/ADA Supervisor prior to publishing on the agency's website. The agency's website includes annual reports published from 2014 through 2025. The 2025 report details findings, corrective actions, key accomplishments, and comparative data for 2022-2025. The agency maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. Data from the previous calendar year is supplied to the Department of Justice no later than June 30th, if requested. The agency is collecting and aggregating sexual abuse data on an annual basis as required by the standard for facilities under its direct control and private facilities with which it contracts. The report uses a standardized set of definitions, which are

	available on the agency website and in the VADOC Operating Procedure. The PCM for each facility is responsible for reporting institutional data to the Regional PREA/ADA Analyst. The VADOC collects accurate, uniform data for every PREA related allegation using a standardized instrument and set of definitions. The VADOC also obtains incident-based and aggregated data from the facilities with which it contracts for the confinement of its inmates. This is collected and monitored by the PREA Coordinator's office. The agency contracted for the confinement of its offenders with the GEO Group. The GEO Group operates a private prison in Lawrenceville, VA. A review of the agency's PREA Annual Report reveals the agency is collecting data from the Lawrenceville Correctional Center where VADOC offenders are housed, although the LCC is not under the agency's direct control. LCC's PREA reports are also included on the agency website. However, per a news release dated December 15, 2023, it was announced that the DOC would assume control of Lawrenceville on August 1, 2024 at the end of the current contract term. As of the date of this onsite review, Lawrenceville CC is no longer operated as a contract facility. In addition, the Agency provided copies of Bureau of Justice Surveys of Sexual Violence submitted by the agency from 2014 to 2024. The VADOC PREA Hotline Coordinator compiles the data, completes the Survey of Sexual Violence and submits the completed form to the Bureau of Justice Statistics. All surveys are submitted by the PREA Hotline Coordinator before June 30th. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None

	Evidence Relied upon to make Compliance Determination: 1. MCTC Completed PAQ with ADP 2. VADOC Operating Procedure 038.3 3. Annual Reports 4. Website with sexual abuse data 5. Interviews with Staff Findings: The VADOC Operating Procedure is consistent with the requirements of the standard and indicates that data collected pursuant to 115.87 for all facilities under its direct

	control and private facilities with which it contracts will be made readily available to the public through the agency website, excluding all personal identifiers after final approval. Per policy, the data review is conducted to: identify problem areas; take corrective action on an ongoing basis; and prepare an annual report of its findings and corrective actions for each facility, as well as the agency. VADOC policy requires the data review report include: a comparison of the current year's data and corrective actions with prior years; an assessment of the DOC's progress in addressing sexual abuse; approval by the Director; and must be readily available to the public through the agency's website. The Auditor reviewed the Annual Reports available on the agency website, including data for calendar years 2022 – 2025. The reports indicate that the agency reviewed the data collected to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training. The report, entitled "PREA Annual Report" includes an overview of the facility's plan for addressing sexual abuse and aggregated data. The annual report will include a comparison of the current year's data and corrective actions with those from prior years and must provide an assessment of the VADOC's progress in addressing sexual abuse. The annual report indicates the agency's efforts to address sexual abuse include continually providing education and staff training, as well as evaluating processes and standardization. Interviews with the PREA Coordinator confirm these efforts. A review of the agency annual reports found them to be very detailed and thorough, suggesting that the agency is regularly reviewing the data collected to identify issues and correct them. The agency's annual report includes any corrective actions taken by the VADOC for each facility. Data is listed and compared for each facility, as well as each region. There appears to be a high level of transparency in the Department's efforts to prevent, detect and respond to sexual abuse and harassment. The report is signed by the Director and the PREA/ADA Supervisor and there is no personally identifying information in the report. After a review, the Auditor determined the facility exceeds the requirements of the standard. Corrective Action: None

VADOC Operating Procedure is written in accordance with the standard that data collected pursuant to 115.87 will be made readily available to the public through the agency's website, excluding all personal identifiers after final approval by the Commissioner. Policy states the agency will ensure all data collected is securely retained for at least 10 years after the date of the initial collection unless Federal, State, or local law requires otherwise. The PCM is responsible for reporting institutional data to the Regional PREA/ADA Analyst. Facility data collected and maintained by the PCM is kept in a secured location. Aggregated sexual abuse data for the agency's annual report is compiled from Investigative files, Incident Reviews, and other relevant documents. Agency and facility data is maintained electronically in secure servers which require a unique username and password to access the data. The Auditor reviewed the agency's website, which included annual reports with aggregated sexual abuse data, as well as an analysis of the data. There were no personal identifiers contained within the report. The Auditor was informed sexual abuse and sexual harassment data is maintained for a minimum of 10 years after collection. 	Evidence Relied upon to make Compliance Determination: 1. Previous Audit Report 2. PAQ 3. On-Site Review Interviews with the following: • PREA Coordinator • Warden

- PCM
- Random and Targeted Inmates

Observation of the following:

- Observation of, and access to all areas of the MCTC during the site review

Findings:

The MCTC had its last PREA Audit June 27-June 29, 2023. The Auditor reviewed the facility's previous PREA report dated July 16, 2023. The Auditor was given full access to the facility. The facility administration was open to feedback and all recommendations were implemented immediately. The facility provided the Auditor with a detailed tour of the facility. The Auditor was provided and reviewed the relevant policies, procedures, and other documents to assist with rendering a decision on the facility's level of compliance with each of the PREA standards. The Auditor was able to request, review and receive all requested documents, reports, files, video, and other information requested, including electronically stored information. All requested documentation was provided in a timely manner.

The auditor was provided extensive documentation prior to the on-site audit, for review to support a determination of compliance with PREA standards. During the pre-audit, onsite review and post audit phases, the auditor reviewed all PREA investigative files, staff/inmate training records, inmate risk screenings, background investigations, logbooks, program information, camera placement and other pertinent documentation.

All staff at MCTC cooperated with the Auditor and allowed the Auditor to conduct interviews with staff and inmates in a private area. The auditor was permitted to conduct unimpeded, private interviews with inmates at MCTC, both informally and formally. The Auditor was given private interview rooms to interview inmates, which were convenient to inmate housing areas. The MCTC staff facilitated getting the inmates to the auditor for interviews in a timely and efficient manner. Informal interviews with inmates confirm that they were aware of the audit and the ability to communicate with the auditor.

The auditor was able to observe both inmates and staff in various settings.

Prior to the on-site review, letters were sent to the facility to be posted in all inmate living areas which included the Auditor's address. The Auditor observed notices posted in each inmate living unit that were emailed to the facility staff prior to the Audit. The Auditor received documentation that the notices to inmates were posted six weeks in advance of the first day of the audit. The auditor did not receive any confidential letters from inmates at MCTC, or any other interested party.

The Auditor communicated with a victim advocate with the Virginia Sexual and Domestic Violence Action Alliance to verify the services offered through the Memorandum of Understanding. The Auditor also verified that forensic exams and a qualified Sexual Assault Nurse Examiner (SANE) were available to respond to the facility in accordance with the established MOU.

	There were no barriers to completing the audit at MCTC. The facility had an onsite review and audit within the three-year period of the last audit and has completed the onsite review and audit process. Each facility under the direct control of the Virginia Department of Corrections has been audited at least once during the previous three-year audit cycle. During the previous audit cycle, the Virginia Department of Corrections ensured at least one-third of its facilities were audited each year. After a review, the Auditor determined the facility meets the requirements of the standard. Corrective Action: None
